ON THE ICE

SKILL STICK

Make pinpoint, fluid passes like an NHL All-Star with the right analog stick by pushing it in the direction you want the puck to travel. This new technique lets you control the puck and make precise passes easier than ever before. You can also make saucer passes by clicking the **R3** button and pushing the right analog stick in the direction you want the pass to go.

ROLES/ICONS

Pay close attention to the on-screen role icons to locate the three different types of players on the ice—every player has one. Star players' role icons are placed inside of a star, while regular players have their icons inside of a circle. The icons are based on player ratings, making for the most realistic gameplay experience. For example, snipers and danglers are superior at deking into the zone while defensemen are very tough to get past. Play to your players' strengths at all times to gain an advantage on your opponent.

Sniper/Dangler

Playmaker/Power forward

Offensive defenseman/Defensive defenseman

TARGETS

Aim your shot with the help of in-net targets (when your Shot Aim is set to MANUAL). During scoring opportunities, a target icon appears inside the goal posts—press the left analog stick during your windup to move the target to an open part of the net. Once an opening appears, shoot the puck on net. Scoring has never been so easy.

CLASSIC DEKING CONTROL

Classic deke controls return. Movement on the ice is more intuitive than ever as you skate and deke simultaneously using the left analog stick. Press the left analog stick quickly to deke past opponents and fool overaggressive goalies.

OPEN ICE SUPPORT/CONTROL

Open Ice Support is used to call a teammate to your rescue to block defensemen on your way to the net. Open Ice Control gives the control of the puck carrier to the AI while you take control of another player on the ice and try to position him to receive a pass.

DYNASTY MODE™

Take on the role of GM (general manager), coach, and player and run your favorite franchise—whether it's an NHL team or any of the high-powered teams from the European Elite leagues—for up to 10 seasons. See if you can live up to your owner's expectations by increasing profits, capturing division and conference titles, and most importantly, winning the Cup.

MESSAGE CENTRAL

Keep up on the latest news from inside your own organization—and around the league—by checking your messages. Read messages regarding the league, owner, staff, coaches, accounting, and players. Be sure to read each message before they expire—emails automatically get deleted if you let them sit in your inbox too long.

DYNASTY CENTRAL MENU

Make every off-the-ice move from the Dynasty Central menu. From playing the next game on your schedule to setting your Rules and Options, the everyday operations are managed here.

DAY-TO-DAY

Day-to-Day operations include playing or simulating games on the schedule, viewing the season calendar and team reports, and saving your Dynasty.

GM OPTIONS

As GM you have to work around the NHL's salary cap rules by using your power to trade players, sign free agents, and view scouting reports to evaluate the upcoming rookie draft. You can also release players to free agency via the Contracts menu or send them to the minors by choosing COACHING OPTIONS then selecting MINOR LEAGUE MANAGEMENT.

COACHING OPTIONS

Take more control over the team by adjusting the practice schedule, editing lines, managing your minor league teams, changing jersey numbers, tweaking game strategy, and reviewing progress reports for every player on the team.

STATS CENTRAL

From overall team standings and statistics to individual numbers and awards, here's where you find all the stats you need.

RULES AND OPTIONS

Set rules and options to fit your style of play. Gameplay settings, display settings, sound settings, and the controller configurations are all adjusted here.

DURING THE SEASON

There's more to just playing the game during the 82-game season. For every hat trick, stick save, and game-winning goal, there are managerial issues that need to be addressed. It's up to you to manage your players' salaries while building hockey's next dynasty.

MORALE

Every player on your team starts with a morale rating of 100. Morale goes down if players don't get the ice time they want, they feel you're not spending enough on Team Functions, or your team loses several games in a row. View player morale on the Progress Reports screen. When morale decreases, player attributes go down. In the Player Information screen a phrase next to each player explains how high his morale is at the moment. Use that information to make strategic decisions about which players to put on which line.

OWNER'S TRUST SYSTEM

The Owner's Trust System is calculated every game and the reward your team gets is based on its results on the ice. A big win against a strong team provides more points than a big win against a weak team. Losing a game your owner expected you to win loses Owner's Trust Points. Winning a game your owner expected you to lose, however, earns you Owner's Trust Points. Winning against a much better team on numerous occasions changes your owner's expectation: he expects to win, even if your opponent is stronger.

An important factor that will have a major impact on the amount of Trust Points you gain or lose per match is the type of GM you choose to be at the beginning of your Dynasty. Some GMs award more points per victory but take away more per defeat. Other GMs provide upgrades to start with, but are stingy with additional upgrades over the course of your career. It is important to choose a type of GM that relates to your style of play.

NOTE: The more Owner's Trust Points you earn, the more Stars you earn. Go to the Upgrade screen in the GM Options menu and use your Stars to upgrade your team in any of 15 categories. The more success you have, the more you can improve your team.

TYPES OF GENERAL MANAGERS

PLAYED-OUT PROFESSIONAL

Having played many years in the NHL and paid his dues, this GM begins the Dynasty with no probationary period. He also starts with higher Owner's Trust, and as a result, has slightly higher Owner's Expectations.

FINANCIAL FORECASTER

A wizard with money, this GM is able to find every loophole and exploit every crack in any contract to help his team make money. Upgrades are available sooner when using him, but Owner's Expectations are also boosted, so be out there to win.

BRAW BOASTER

The media's favorite outspoken mouthpiece, this GM talks a big game. The amount of Owner's Trust Points increases with every win. When you lose, however, the amount of Trust Points lost increases.

INSIGHTFUL INVESTOR

Long-term planning and slow, steady progress are the mottos of this GM. He provides you with at least one star upgrade in each and every category. All this planning comes at a price, though—your Owner's Trust Points build slower than they do with other GMs so it takes more winning to get your next upgrade star.

MASTERFUL MANAGER

This is your vanilla GM. You don't start with any advantages or disadvantages.

PENNY PINCHER

We all like to save money, hockey teams especially. This GM is a master at it, cutting corners, and saving cash wherever possible. The owner rewards him for this with slightly lower expectations, but as a result upgrades become available for the team later.

INGENIOUS INTERCESSOR

A wordsmith of sorts, this GM softens any bad news to the owner, and is an excellent intermediary. He decreases the amount of points lost from losing games, but you also start with a lower than average Trust Level.

ADMINISTRATION AUDITOR

A less hands-on GM, he prefers to do his own thing. The Owner expects much less from him and your team starts out with lower Owner's Expectations, but you also start with the lowest level of Owner's Trust.

NHL ALL-STAR GAME

During the mid-point of the season, the league's elite players gather for one night in Dallas to play in the NHL All-Star game. No matter if you choose to pit East vs. West or North America vs. the World you have the option to play the game, whether you're simulating the season or not.

POSTSEASON

Once the regular season ends, the postseason begins. It's all about the games on the ice. Sixteen teams advance to the playoffs while the rest stay home. Only one will be crowned champion. The playoffs can be viewed or simulated even if your team doesn't qualify for them.

OFF-SEASON

In the off-season teams gear up for a fresh start beginning with the NHL Entry Draft. After the draft GMs have the chance to offer contracts to free agents and release players from their team. After the free agent period ends, the rosters are set and the new season begins.

OTHER GAME MODES

EXHIBITION

Play an exhibition game with any two teams of your choice. After selecting the teams and adjusting the settings, the game begins.

SEASON

Choose from the NHL teams or any of the European Elite leagues and set up a 29-, 58-, or 82-game season as you make a run for the Cup. You can choose from four European Elite leagues: Elitserien (Sweden), SM-Liiga (Finland), DEL (Germany), and Tipsport Extraliga (Czech Republic).

EA SPORTS™ WORLD TOURNAMENT

Team USA vs. Canada. Germany vs. France. Throw the world's best teams into an 8- or 16-team World Tournament and see which country represents the best players in the world. You pick the teams, you set the rules, you play the games.

EA SPORTS™ FREE 4 ALL

Featuring only one net and one goalie, play against up to three others in a Score Drive (play to a set number of goals) or On the Clock (play for a set amount of time) mini-game. It's you against everybody else, and the best goal-scorer wins.

SHOOT OUT MINI-GAME

Practice your moves and breakaway skills in Shoot Out as you take on the goalie head-to-head in a one player format or compete against friends. Rebounded shots do not count.

ROSTERS

Cut players using roster management, and edit lines, determine jersey numbers, and set default rosters of every team. Make sure to go to SAVE ROSTERS before exiting to lock-in your changes.

CREATION ZONE

Create a player who looks and plays like you and get into the game with the analog facial sculpting controls. Add black eyes, broken noses, and scars to put fear into the eyes of your opponents. Create an NHL team in your hometown or edit a player in the league with the player editor.

NOTE: To edit a player in the league, you must first transfer him to free agency. Only then can you access the player.

SYSTEM LINK

Download your PlayStation®2 game (in Season and Dynasty modes only) onto your PSP® (PlayStation®Portable) system and continue playing, then save and switch back to your PlayStation®2 whenever you feel like it. You can link back and forth between the two systems as many times as you want.

RULES AND OPTIONS

Go to this menu to adjust your Settings, Rosters, Controller Configuration, and the songs in your EA SPORTS™ TRAX Jukebox.

HINTS AND TIPS

DYNASTY MODE

- In Dynasty Mode, you now have the ability to place players in the Minor Leagues. These players don't count towards your team's salary cap, leaving you money to spend elsewhere.
- In Dynasty and Season modes, you can now highlight players in the Scouting Reports screen. Press the **X** button to select them and track their progress.

ON THE ICE

- The Player Information screen now features an Other Information tab. Check it out regularly to see how your players are feeling and adjust your strategy and lines accordingly.

- Keep your best skater's boost timer for those crucial minutes of penalty-kill, power play, or last minute goals.
- If the enemy is expecting a one-timer, surprise him with a wrap-around.
- Taking a timeout during the 3rd period can be crucial to refreshing your lines' fatigue and boost, setting them up for the game-tying or game-winning goal.
- A speeding skater loses awareness; skating at regular speed, you are much more likely to intercept passes and shots than if you are boosting.
