**WARNING: READ BEFORE USING YOUR PlayStation™ GAME CONSOLE.**

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation™ game console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

**WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PlayStation™ game console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

**HANDLING YOUR PlayStation™ DISC:**

- This compact disc is intended for use only with the PlayStation™ game console.
- Do not bend it, crush it or submerge it in liquids
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

## STARTING THE GAME

NOTE: This CD-ROM can only be used with the PlayStation™. Do not attempt to play this CD-ROM on any other CD player — doing so may damage the headphones or speakers.

1. Set up your PlayStation™ as described in the PlayStation™ instruction manual and insert a controller into controller port 1.
2. If you wish to play together with a friend you need to connect your two consoles with a Link Cable.
3. Insert the Burning Road™ CD, label side up, and close the disc cover. Be careful not to touch the surface.
4. Press the POWER button to load the game. The game will start after the Sony Computer Entertainment and the PlayStation™ Logos have been shown. If nothing happens turn the system OFF and make sure that it is set up correctly.
5. Once the game has loaded you will be at the Main Screen menu ready to play Burning Road™

# CONTROLS

## Practice

This is just what the name says. Practice your skills in one of the four vehicles on one of the three tracks while competing against 7 computer controlled opponents. Learn how to master your car and work out the tricky curves before going to Championship.

## Championship

This is the real thing. Choose one of the four cars to race against the 7 computer controlled opponents on all tracks, one after the other. Beat the qualifying time to advance to the next track and make sure that the others eat your dirt.

## Link Mode

Link up with your friends to show them what horsepower is all about. Put an end to the discussion of who's the better driver by making them disappear in the dust.

## Options

Select this Menu Item to customize your control settings and adjust the sound effects and music volume to your comfort. High scores can be saved on a memory card. You can also select the type of music you want played here.

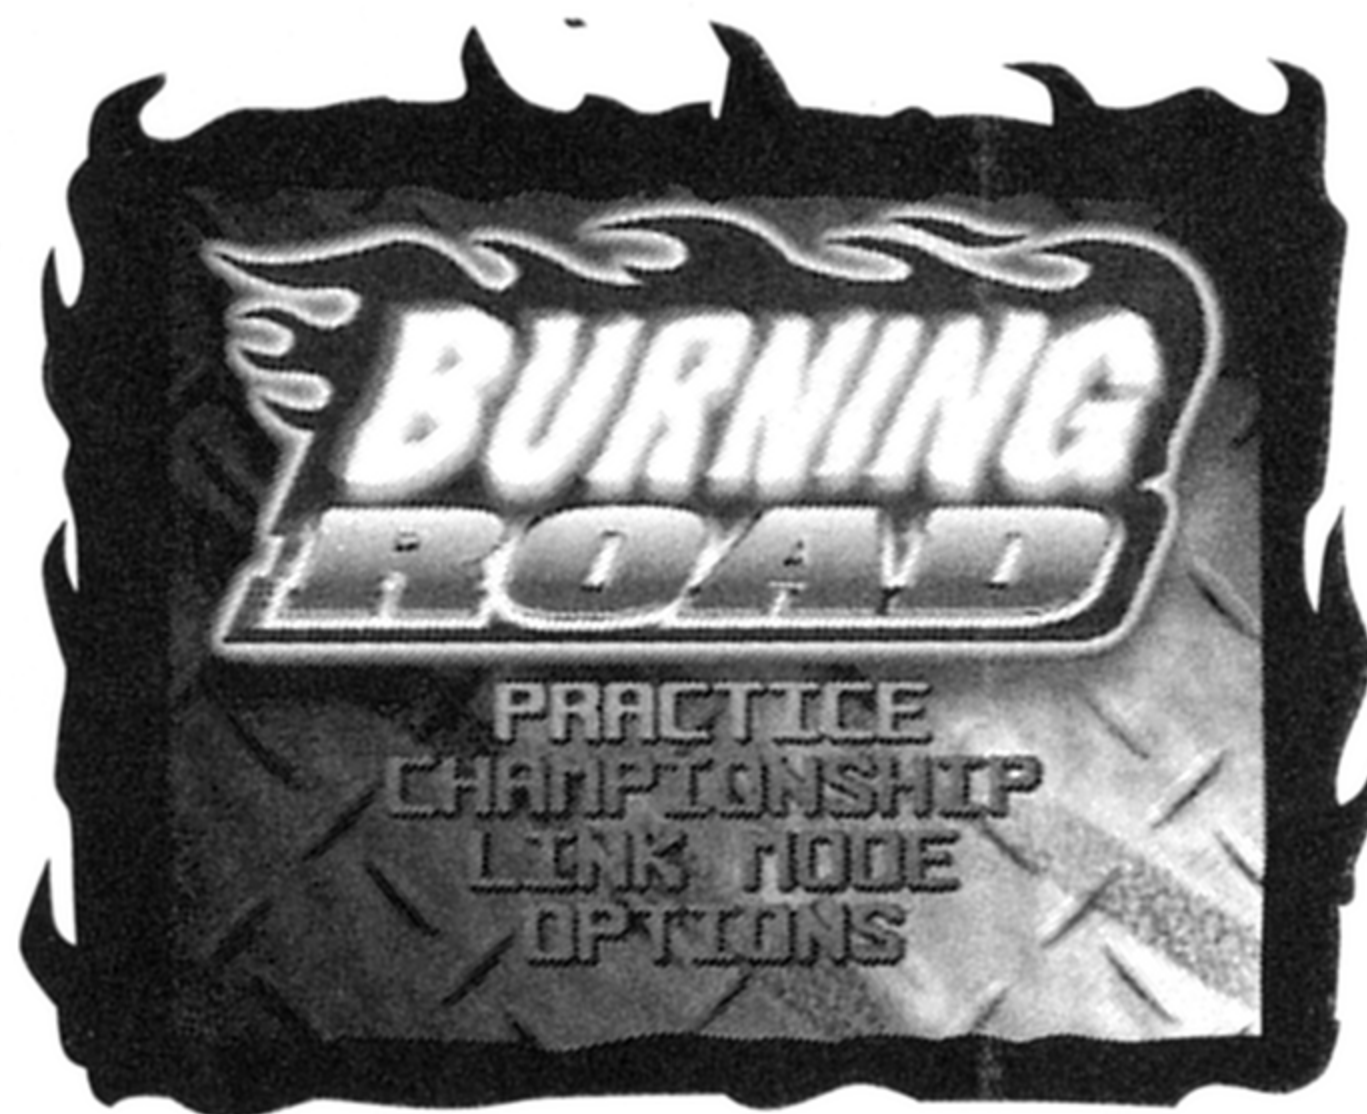

# HEROES ARE MADE, NOT JUST BORN

## Getting Started

After the various logos have been displayed the Main Menu screen will appear.

Use the Directional Buttons up and down to change the highlighted menu item and press the X Button to select.

If you don't perform any action within 30 seconds the game will switch to demo mode. Skip the demo sequence by pressing the START button.

## THE OPTIONS MENU

Use the **Direction Buttons** up and down to the desired menu item. Use the **Direction Buttons** Left and Right to change Menu Item. Press the  $\triangle$  Button to return to the Main Menu screen.

### **Level** (Easy/Medium/Hard)

Change this to select the skill level of the computer controlled opponents.

### **Controls**

Change this to select your favorite button configuration.

### **FX Vol**

Use Direction Buttons left and right to decrease and increase the volume of the sound effects.

### **CD Vol**

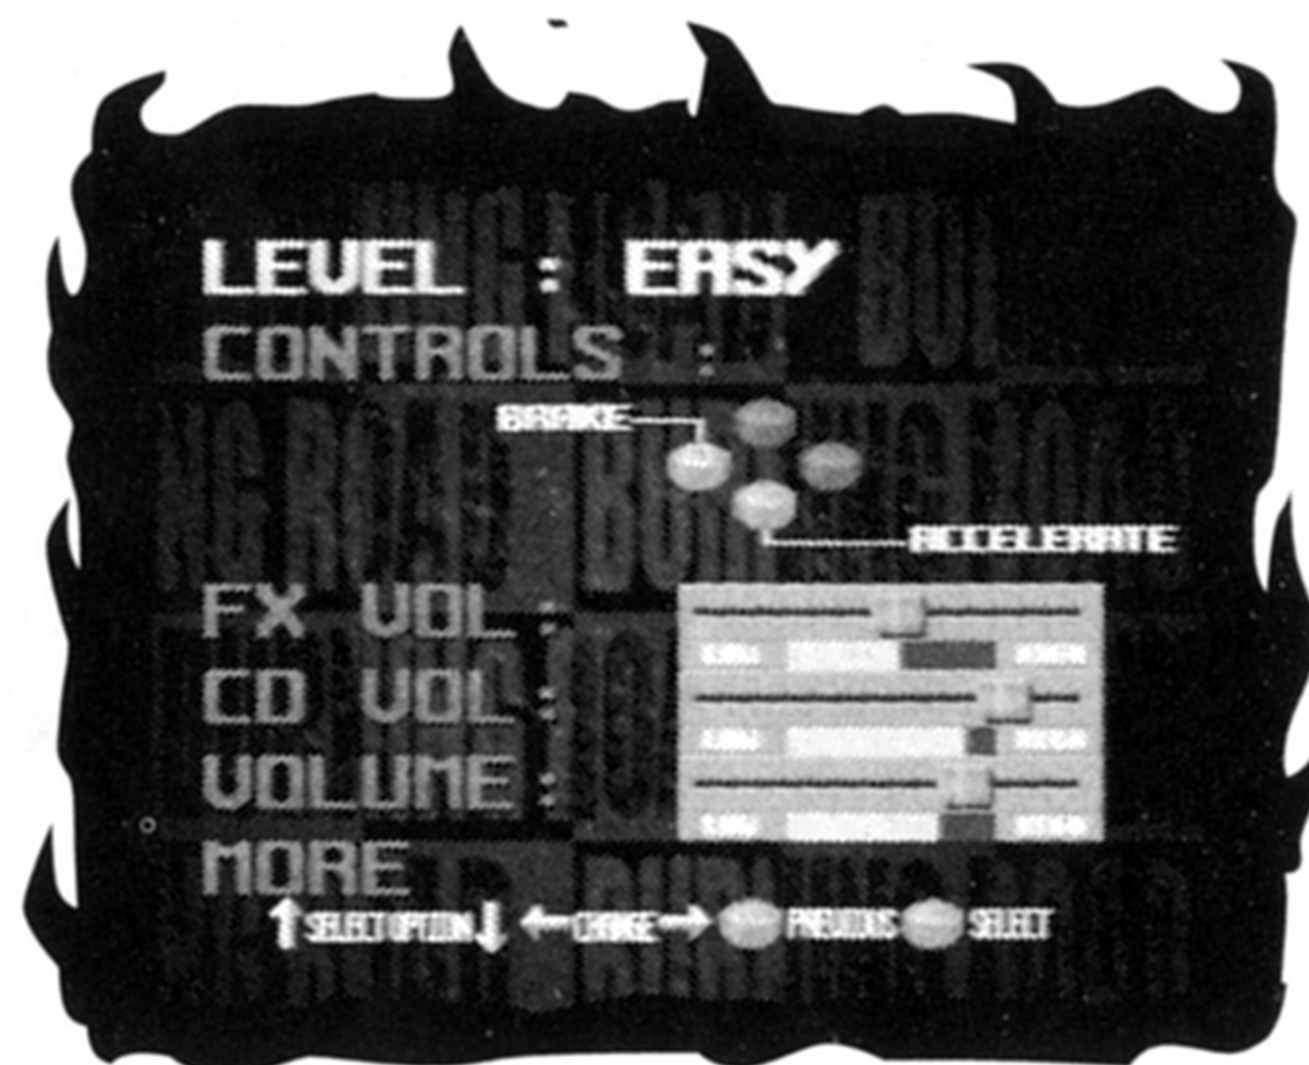

Use Direction Buttons left and right to decrease and increase the volume of the CD audio.

### **Volume**

Use Direction Buttons left and right to decrease and increase the master volume.

### **More**

Press here to enter the next option screen.

# THE OPTIONS MENU

## Save Menu

Enter here to save or load your high scores, controller setup and best times. The only way to save over an existing saved game in Burning Road™ is to first delete the previously saved game and then give the command to save the current game.

## Analog setup

Select this to calibrate and setup your analog device (Sony compatible steering wheel, etc.).

## Music

Select two different soundtracks. The Classic Mix or the U.S. Re-Mix.

## Exit

Press here to enter the Main Menu screen.

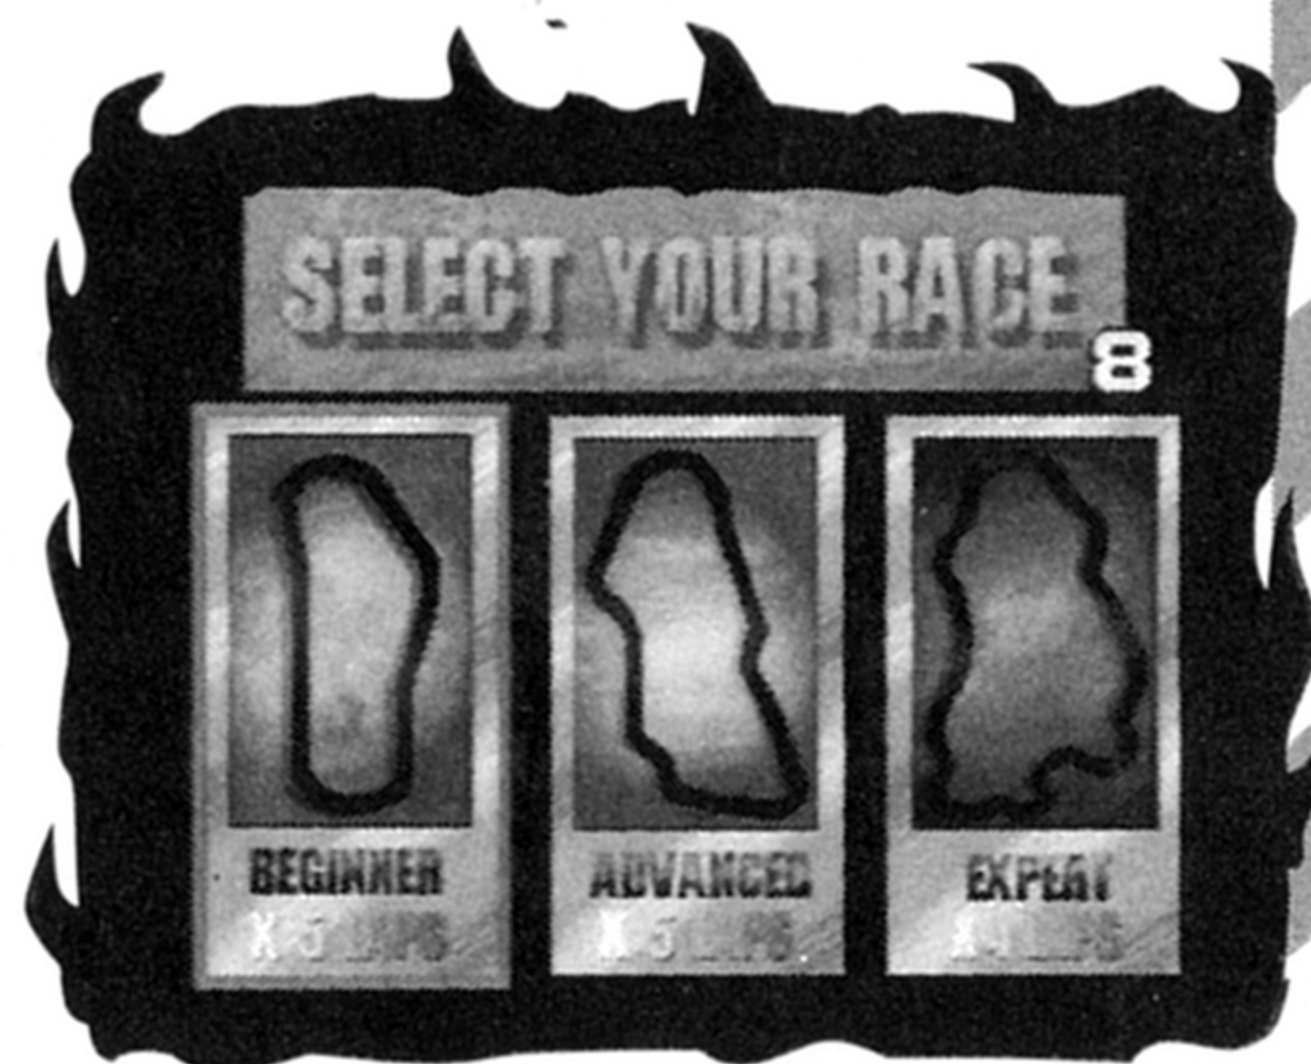

## PRACTICE MODE

If you want to perfect your skills on a specific track this is the game mode you should select.

First you have to select which track to practice on. Choose between Beginner, Advanced and Expert. Use the Direction Buttons left and right to change the highlighted track and press the X Button to select.

You have a time limit of 8 seconds to make your choice. After that the track which is highlighted will automatically be selected.

Once you've selected the desired track it's time to choose from one of the four cool vehicles. Each vehicle has different abilities. Some are slower but have better road holding capabilities. Others are faster but controlling them on the road is more difficult. Again use the Direction Buttons left and right to change the vehicle and use the X Button to Select. Again you have 17 seconds to make your choice or the currently shown car will be automatically selected.

## START-UP ITEMS

Choose between Automatic Transmission (AT) or Manual Transmission (MT). If you select Automatic Transmission your car will automatically shift gears up and down when needed. When using Manual Transmission however, you can with some practice achieve better acceleration than with Automatic Transmission. Again use the Direction Buttons left and right to highlight the desired choice and use the X Button to select. Note that you again have a limited time to make a choice.

Now that all your choices have been made, it's off to the race track. Prepare yourself for a mind blowing race at incredible speed. Prepare yourself for Burning Road.™

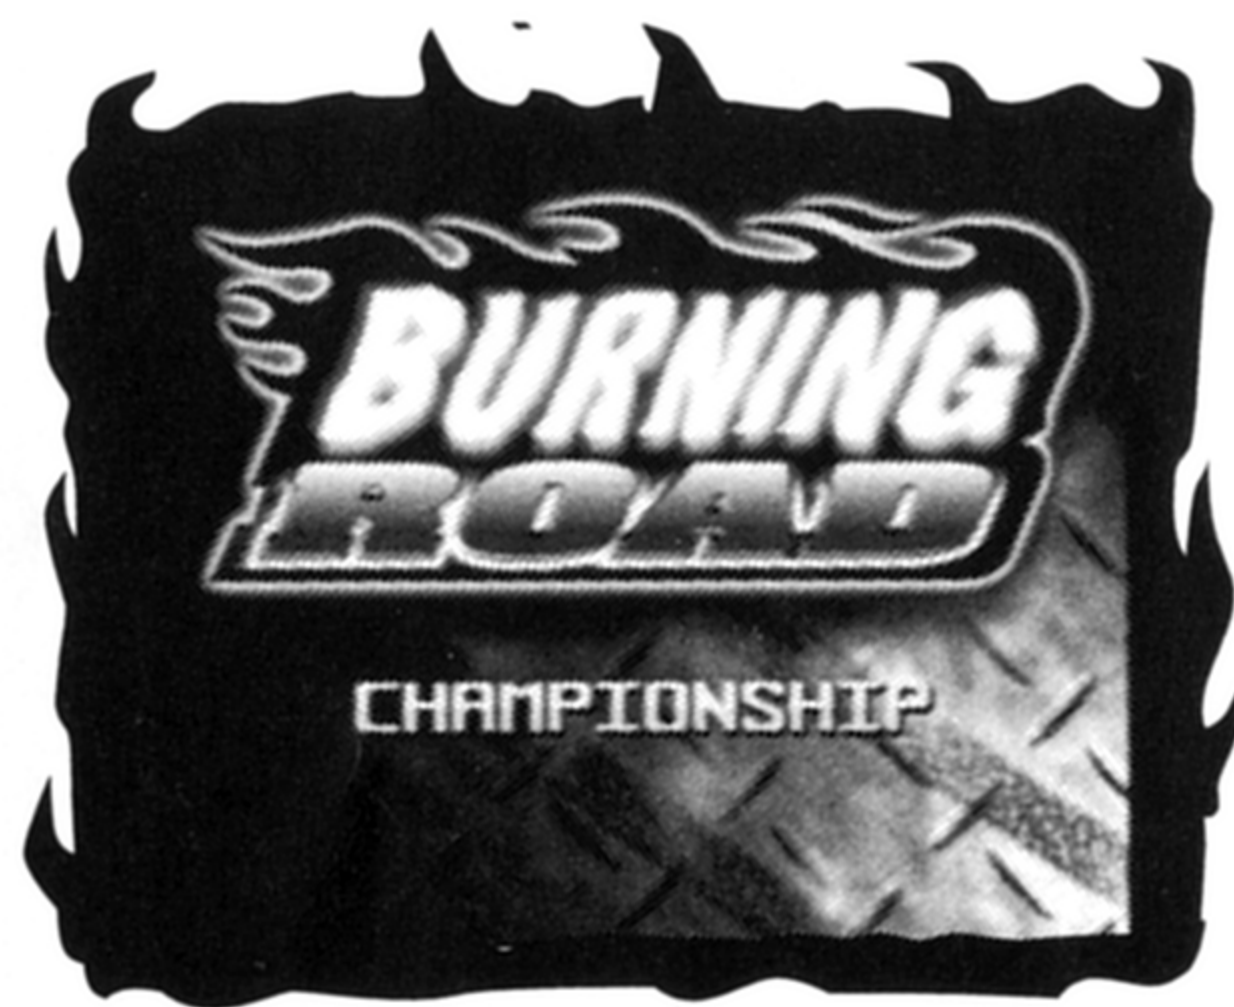

## CHAMPIONSHIP

You have practiced every curve on all the three tracks. You know them all, even in your sleep. You have driven your car to the extreme and you beat them all in practice. Now it's time for you to go for the championship.

When you enter the Championship mode you will again have to choose in which car and with what kind of transmission you wish to race. Once you have made your choices you will be taken to the beginner track to prove your skills. If you win on the beginner track, you will advance onto the advanced track and then onto the expert track.

## **LINK MODE**

If you want to show your best friend just how wrong he is when he claims that he is the better driver, then challenge him in this Head to Head battle and show him up once and for all.

When selecting the Link Mode Burning Road will seek out challengers for approximately 8 seconds. If no challenger has arrived within this time the game will return to the Main Menu screen.

If you experience problems while trying to establish a Link connection, make sure that the Link Cable has been inserted correctly into the Serial I/O port on the back of your PlayStation™.

Once you have linked up you may choose your track, car and transmission and launch into a race of honor.

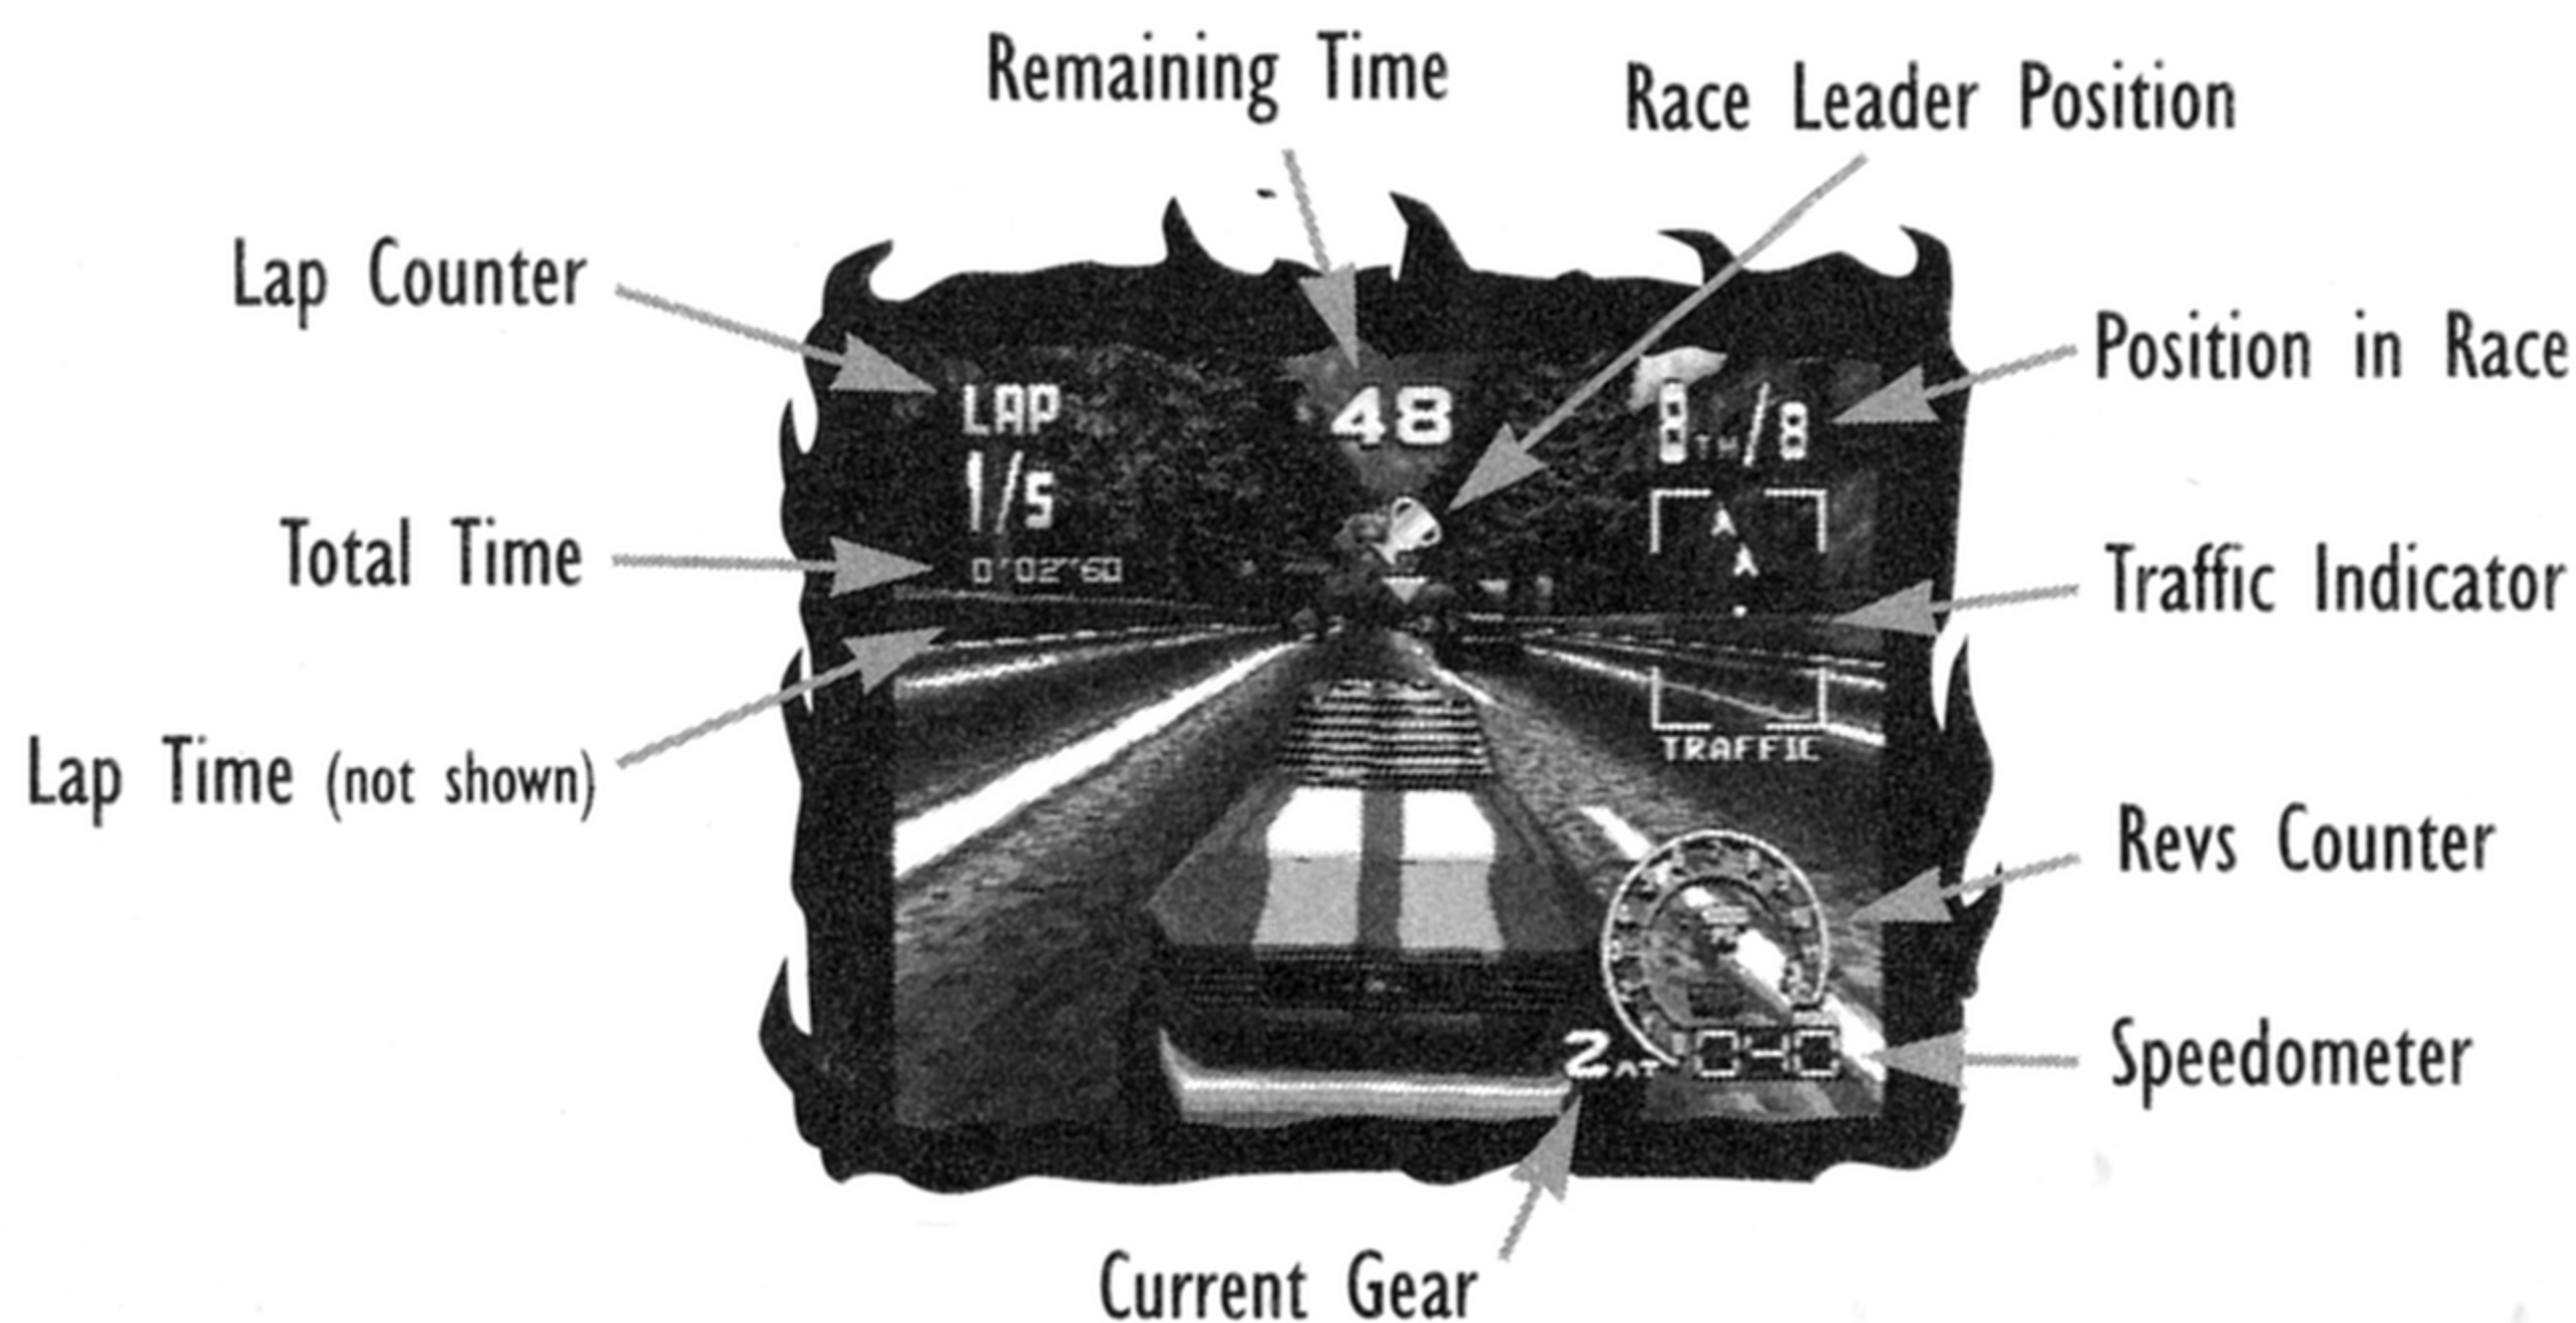

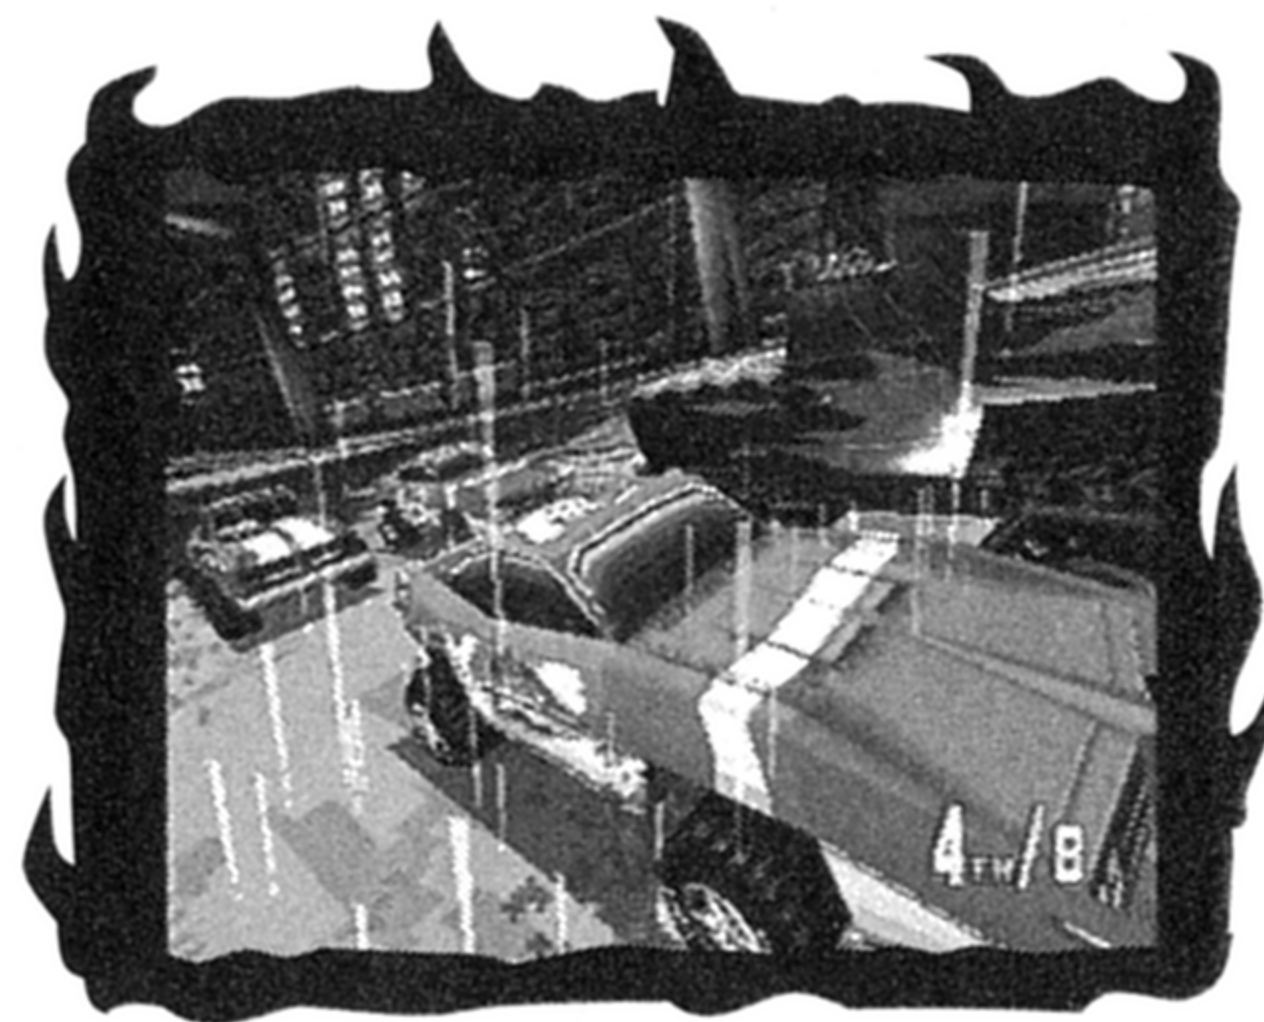

## THE RACE

Once the track has been loaded the countdown to the race will begin. Three...Two...One...GO! Hit the pedal and go for the pole position. Watch those sharp curves and get those power slides under control.

You have five camera positions available in the game: three behind the car, one in the car and one in front of the car. Use the L1 and L2 buttons to move the camera position in and out to the position that suits you the best.

Use the START button to pause and unpaue the game. If you want to quit the race and return to the Main Menu screen press the SELECT button while in pause mode.

## THE RACE

If you chose to play with Manual Transmission use the R1 and R2 buttons to shift gears up and down.

While in the race you have a Heads-Up Display. Learn to read it to make the most of the race.

The aim of the game is reach the finish line in the fastest time possible. You have a limited amount of time to complete the race but you will get additional time when passing the time extension flags placed around the tracks.

When you finish the race you will be presented with a replay of the ENTIRE race (not just highlights) to see how you performed and what to look out for the next time. Press the **START** button to skip the replay sequence.

If you were racing in PRACTICE mode you will be asked if you wish to race again. Select NO to return to the Main Menu screen. Now the score summary screen will appear with a list of all the relevant statistics. Press the START button to exit this screen and continue with the CHAMPIONSHIP (given that you finished the race within the qualifying time).

### Alternative Controllers

For the ultimate game experience with Burning Road™ you should use an analog input device or preferably a steering wheel.

Due to the various button setups on different controllers the references to the four buttons of the original PlayStation™ Controller may not apply to your analog device.

Please refer to your controller manual for the button references.
