If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

## PROLOGUE

**In Casino City Plata Losa...** On the eve of a grand opening party for Desert Moon – a new hotel casino with a horror theme – Detective Keith J. Snyder, assigned to VIP security, is unexpectedly drawn into a horrific nightmare. At the height of the party festivities, a fire breaks out. Emergency sprinklers extinguish the fire, but they also

spray some revelers with a mysterious black liquid that suddenly transforms them into vicious vampires! An ominous warning declares that the casino doors will be sealed shut in three minutes. Keith is desperate! But, carrying out his duty to search for VIP guests and risking his own survival, he opens new doors to "Desert Moon."

# OBJECTIVE

## THE PRIMARY OBJECTIVES OF THE GAME ARE:

- 1) To put to sleep all vampires that were formerly humans by shooting them with an anesthetic gun, and to rescue them by changing them back into humans with "White Water."
- 2) To defeat the true vampires. However, there is a hidden purpose... Discover it yourself!

## RESCUE METHOD

If you shoot vampires that were formerly humans with the anesthetic gun, they will go to sleep. By getting close and sprinkling "White Water" on them, you can rescue them. (Even if they go down once, they may get up again. Make sure they are fully asleep before you attempt to rescue them.)

## GAME OVER

A player is wounded whenever attacked by the enemy. Player's movement will change when injured. The degree of injury can be checked with Condition Gauge. If wounds accumulate to a certain degree, the player dies and the game is over.

Condition with no wound

Condition wounded

**SWITCHING WEAPONS**

The player can equip himself with two weapons at a time, but one has to be the anesthetic gun. If the player pushes **C** Button while pushing R1 Button, the weapon can be switched.

**EMERGENCY EVASION**

# SAVE / CONTINUE

By using the Network PC (which is located somewhere in certain Stages) a player can save the current game data. The maximum number of times a particular game file can be saved until "GAME CLEAR" is 150.

When a player stands in front of a Network PC and presses the  Button, the Menu opens. If the player selects "SAVE," the data from the current game can be saved. Follow the directions on screen when saving a game.

## NOTES:

- To save data, a separately sold memory card is needed.
- With each empty 3 block set, you can save up to 15 game files.
- Be careful. During recording or loading of game data, if player presses either the Power of Reset Buttons, or takes out the memory card, the data may be destroyed.

## FIRST ROUND STRATEGY

### Point 1: Focus on Making Rescues

When a player rescues vampires that were formerly human, the monetary reward is not the only benefit. Depending on the number of people rescued, a new story will start.

### Point 2: Don't Waste Bullets

Keep track of how much ammunition you need to kill certain vampires. Use the appropriate amount of ammo (bullets, grenades, etc.) to kill vampires of differing strength. Try to avoid overkill. The efficiency of battles is evaluated.

### Point 3: Keep Searching – Stay in Action

Keep searching and stay in action by working through the files and memos you find. You'll find clues that give you access to unexpected Items that can even open up new Stages.
