MAIN MENU

NEW GAME

Select "New Game" to start a new game from the beginning of the mission.

LOAD GAME

Select "Load Game" to get to the Load Game menu. Here you can select from previously saved games to resume play where you last left off. (You must be using a MEMORY CARD containing **DANGER GIRL** game data in order to use this option.)

At the end of each level you'll be given an opportunity to save the game. If the Auto-Save function is enabled, the game will automatically save your progress as you finish the levels. If the Auto-Save function is disabled, a save menu will appear when you complete a level. (See page 5 for more information about Auto-Save.)

To load a game from the Load Game Menu use the Directional buttons/Left Stick \uparrow/\downarrow to select the saved game. Press the \times button to confirm and load the saved game.

MEMORY CARD

To save or load game data, you must insert a MEMORY CARD into MEMORY CARD slot 1 or 2 of the PlayStation game console before beginning play. You can load your saved games from the same card, or from any MEMORY CARD containing previously saved **DANGER GIRL** games. Press the Select button to switch between MEMORY CARD 1 and 2.

OPTIONS

Select "Options" to go to the Options menu. Here you can "fine-tune" your gameplay controls and preferences. If you choose not to, the game will automatically use controls listed on page 3.

Audio

Use the Directional buttons/Left Stick \uparrow/\downarrow to select "Sound Volume", "Music Volume", "Cinematic Volume" or "Stereo/Mono". Use the Directional buttons/Left Stick \leftarrow/\rightarrow to adjust the volume from 0 to 9 (9 maximum) and to change from Stereo to Mono (and back).

Altering Controls

Use the Directional buttons/Left Stick \uparrow/\downarrow to select "Look Speed", "Invert Pitch", "Vibration" or "Remap Controller." To toggle the "Look Speed", "Invert Pitch" and "Vibration" options, use the Directional buttons/Left Stick \leftarrow/\rightarrow . To go to the Remap Controller Menu, press the X button when "Remap Controller" is selected.

Look Speed – Look Speed changes how quickly you can aim and look around in Look Mode. You have 2 options; Slow and Fast.

Invert Pitch – Invert Pitch changes the way the Directional buttons react in first person mode. If the option is turned OFF, pressing \downarrow on the Directional button/Left Stick will make the Danger Girl look up. If the Invert Pitch is turned ON, pressing \downarrow will make her look down.

Vibration – The Vibration toggle turns ON or OFF the responses of the Dual Shock™ analog controller.

Remap Controller Menu – In the Remap Controller Menu, you can select from two pre-set control layouts, or change specific buttons. To change the function of a button, use Directional buttons/Left Stick \uparrow/\downarrow to select the function to be changed, and press the X button to erase the current button assigned to it. Then press the button you want assigned to that function.

Game Menu

Use the Directional buttons/Left Stick \uparrow/\downarrow to select between the "Auto-Aim" and "Auto-Save" options in this menu. Use the Directional buttons/Left Stick \leftarrow/\rightarrow to turn the options ON/OFF.

Turning OFF the "Auto-Aim" option means that you will have to manually aim at your enemies using the Directional button/Left Stick. This makes the game more challenging.

Turning ON the "Auto-Save" option will save your game for you at the beginning of each new level.

Danger Girl's Health

This is the amount of health remaining until your character is eliminated. The longer this bar is, the more health you have.

Enemy's Health

This is the amount of health remaining until an enemy boss is eliminated. The more the bar lowers to the left, the closer you are to eliminating the enemy.

Weapon Selected

This is the weapon you currently have selected (if any).

Ammo Available

This indicates the amount of ammo currently loaded in your weapon (on the left) and the total amount available (on the right).

Item Selected

This indicates which item you currently have selected for use (if any). Press the **O** button to "use" this item.

Radar/Compass

This indicates where enemies, surveillance cameras and objectives are located in the level.

- ⊕ Yellow arrows indicate enemies who are alerted to your presence, but don't see you.
- ⊕ Green arrows indicate enemies who are not yet alerted to your presence.
- ⊕ Red arrows indicate enemies who are aware of your presence and see you.

“Now listen ladies, I’m going to give you a little ‘refresher’ on how to navigate through your inventory, and how you’re going to handle your objectives.

When you need to go into your inventory, press the SELECT button on your controller. Use the Directional buttons/Left Stick ←/→ to switch between the weapons and item lists. Use the Directional buttons/Left

Stick ↑/↓ to choose a

weapon or item.

You can also press the R1/R2 buttons to

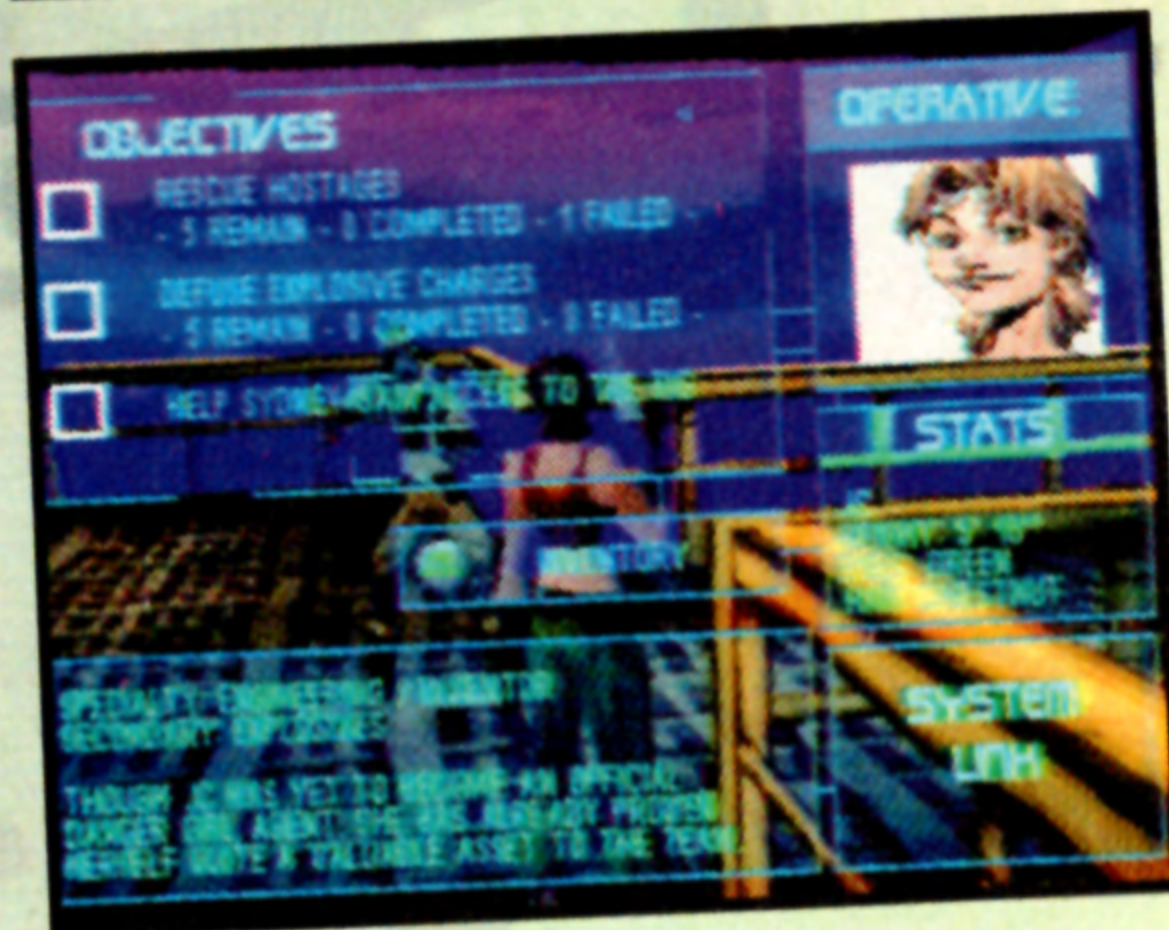

scroll through inventory and the L1/L2 buttons to scroll through weapons. Press the X button to confirm that you are finished adjusting your inventory and you’re back in action.

I’ll brief you on the situation and the objectives at the beginning of each mission. Any updates to the objectives are provided via telecommunications from Valerie. When she contacts you...please pay attention!

To look at your objectives, press the □ button while in the Inventory screen. This will lead you to the Objectives screen. Press △ to back out of the Objectives and Inventory Screens to return to action.

The Objectives screen lists descriptions of each objective, the amount completed (in multi-part objectives), the name and face of the operative currently playing, her stats and any other relevant information displayed by a ‘system link.’

Normally you won’t have more than three objectives to complete, but often they have multiple parts, for instance, six hostages to rescue. You don’t necessarily need to complete the missions perfectly, but you know how I expect perfection. Only the best from my Danger Girls!”

Note on Weapon Specs:

Rate of Fire is based on a scale of 1 to 10, 10 being the quickest. Damage is based on the amount of damage per shot, also on a scale of 1 to 10, 10 being the highest.

Reminder about Auto-Aiming

If you want the game to aim for you, then go to the "Game" section of the Options menu and turn

"Auto-Aim" ON. If you have it turned OFF, you will have to manually aim when firing at enemies.

Note on Reloading:

When you run out of ammo in a clip, the game will automatically reload your weapon. This takes a second, so be aware of the amount of ammo you have. You don't want to be forced to reload in front of an enemy.

DESERT EAGLE PISTOL

Clip size: 15

Max ammo: 90

Rate of Fire: 7

Damage: 7

Description: *Nice pistol, but basic. It's a good "run and gun" weapon because of its rate of fire.*

**MK23**

Clip size: 10

Max ammo: 60

Rate of Fire: 5

Damage: 5

Description: *The MK 23 is a smaller gun than the Desert Eagle, but it comes equipped with a silencer for stealth action.*

**HEAVY PISTOL**

Clip size: 6

Max ammo: 54

Rate of Fire: 3

Damage: 7

Description: *JC's weapon of choice, the heavy pistol is basically a .44 caliber pistol. Capable of dropping enemies in 1 shot, shooting slowly and carefully is advised. With only 6 shots, you're going to have to reload often.*

**AK47**

Clip size: 20

Max ammo: 120

Rate of Fire: 8

Damage: 6

Description: *Good long distance weapon with decent stopping power. These assault rifles are leftovers from the Soviet Union and arm just about every terrorist organization operating today.*

MEDIUM MACHINE GUN**Clip size:** 20**Max ammo:** 120**Rate of Fire:** 9**Damage:** 7**Description:** *Similar to the AK in terms of ammo, the MMG is a slight upgrade in terms of stopping power, rate of fire and is also silenced. It's definitely a more deadly weapon.***SUBMACHINE GUN****Clip size:** 25**Max ammo:** 150**Rate of Fire:** 10**Damage:** 6**Description:** *The SMG is a very high quality weapon. Its extremely fast rate of fire drops enemies quickly. The only disadvantage is its short range of fire.***SHOTGUN****Clip size:** 6**Max ammo:** 36**Rate of Fire:** 2**Damage:** 5**Description:** *Another excellent close range weapon, the shotgun spreads when fired hitting almost anything directly in front of you. This is an excellent weapon to use while you have the Auto-Aim turned on and to fire while running.***HEAVY MACHINE GUN****Clip size:** 25**Max ammo:** 150**Rate of Fire:** 7**Damage:** 9**Description:** *One of the most deadly weapons in the game, the HMG has an incredibly long range, and spells almost instant death to any target.***GRENADE LAUNCHER****Clip size:** 6**Max ammo:** 36**Rate of Fire:** 3.5**Damage:** 5, depending on proximity**Description:** *This is great for knocking out sets of enemies, especially from behind cover. Be careful though, because the grenades are loud when they "blow" and will alert other enemies of your presence.*

ROCKET LAUNCHER

Clip size: *single shot*

Max ammo: *6*

Rate of Fire: *2.5*

Damage: *10, depending on proximity*

Description: *A direct fire weapon, this works as a one hit kill weapon. It has an area effect, so it's possible to kill multiple enemies with one shot. Be careful of firing this too close to a wall or another object. Another ex-Soviet weapon in the hands of terrorists.*

**PIPE BOMB**

Clip size: *single shot*

Max ammo: *20*

Rate of Fire: *n/a*

Damage: *5, depending on proximity*

Description: *Pipe bombs are a good trap weapon. Drop the bomb on the floor and lure an enemy to chase you near it. As he nears the pipe bomb use the Detonator. Make sure the detonator is equipped in your inventory and press the O button.*

**NOISEMAKER**

Clip size: *single shot*

Max ammo: *20*

Rate of Fire: *n/a*

Damage: *7, depending on proximity*

Description: *Noisemakers are another good trap weapon. Throw a few of these on the ground, then arm them by using the Noisemaker Activator. Stepping near one of them when active will cause it to explode.*

**SNIPER RIFLE**

Clip size: *6*

Max ammo: *36*

Rate of Fire: *1*

Damage: *9*

Description: *Sydney's weapon of choice, the sniper rifle is excellent for picking off the guards from long distance. Once in first person "Look" mode, use the L2 button to zoom in, and the R2 button to zoom out. Press the X button to fire the weapon.*

**C4**

Clip size: *single shot*

Max ammo: *30*

Rate of Fire: *n/a*

Damage: *7, depending on proximity*

Description: *Plastic explosive used to eliminate threats. Triggered with gunfire.*

WHIP

Clip size: n/a
Max ammo: n/a
Rate of Fire: 2
Damage: 8

Description: This is Sydney's 2nd weapon of choice, in addition to the sniper rifle. Another item to use when short on ammo and at close range. Plus its always amusing to watch a Danger Girl use a whip!

DARTGUN

Clip size: 5
Max ammo: 75
Rate of Fire: 2
Damage: 5, head shot only

Description: This is strictly for close proximity head shots.

TURRET

Clip size: Infinite ammo
Max ammo: n/a
Rate of Fire: 9
Damage: 9

Description: A level specific weapon. Heavy fire power, but stationary and therefore cannot be kept in inventory.

CLASSIFIED INFORMATION

RADAR: To turn the radar ON or OFF in the upper right corner of the screen, use this item. If you want to turn the radar OFF, go into the Inventory menu and select the Radar item.

NIGHT GOGGLES: Night goggles allow an agent to see in complete darkness. Wearing the goggles will give you infra red vision. Enemies without goggles will be at a distinct disadvantage. When you activate them, they will remain ON until you choose to turn them OFF. Going back into the Inventory screen and re-selecting them will turn them back OFF.

NOISEMAKER ACTIVATOR: Once you've thrown a Noisemaker on the ground, you can activate it by using this device. When you have it selected as the current item, the Noisemakers you have thrown are "active."

DETONATOR: Using this item will cause Pipe Bombs to explode. Equip it, and then go back to the game. Pressing the  button will detonate the bombs.

STIM PAK: Using this item when equipped will give you a big charge of first aid. Wait until you are low on health, then use the stim pak to immediately recover. The stim pak's effects are temporary.

SECURITY CARDS: Use security cards to get in and out of secured doors. Often you can open a locked door by using a security card found in the game.

REMOTE CONTROL: Use this item to open special areas or trigger events in the levels.

GAS EMITTER: Knock out nearby enemies by attaching to ventilation systems.

BOMB DECODER: Use this level specific item to decode bombs.

DEMOLITIONS: Attach to various items to destroy them.

Though spending the majority of her young life as a loner, Abbey is a natural team leader. Soon after, Abbey became a full fledged member of the Danger Girls international covert operations.

BIRTHPLACE: Sydney, Australia

Sydney Savage, a striking, sassy and vivacious component of the Danger Girls, originates fittingly from the picturesque and lively continent of Australia.

In the midst of her numerous repairs and improvements, the Hammer struck again. This time Deuce was without a third operative, and JC was more than willing to step up to the challenge.

Unfortunately, Natalia was also a double agent. Secretly working for the Hammer Empire, she infiltrated the Danger Girls ranks and nearly led the team to their death.

Currently a commander in the Hammer Empire, Natalia continually attempts to take over the world, though her ultimate passion is to do away with archenemy Abbey Chase.

USEFUL HINTS

THE AUTO-AIM OPTION ALLOWS YOU TO FEEL MORE LIKE A CHARACTER IN THE COMIC BOOK. YOU'LL BE ABLE TO JUMP AND DIVE (USING R2/L2 + □) AND STILL HIT YOUR ENEMIES. IF YOU DON'T USE THE AUTO-AIM OPTION, THE GAME WILL BE MORE CHALLENGING.

MAKE SURE TO CHECK FOR HIDDEN ITEMS. YOU CAN ALSO MANIPULATE SOME OF THE ITEMS IN THE LEVELS, SO WALK UP TO STUFF AND PRESS THE O BUTTON IF ANYTHING LOOKS SUSPICIOUS.

IF YOU FORGET WHAT YOUR OBJECTIVES ARE, PRESS THE SELECT BUTTON AND PRESS THE □ BUTTON. THIS WILL TAKE YOU TO THE OBJECTIVES SCREEN.

THE ENEMIES ARE AWARE ... THEY ACTUALLY HEAR AND SEE YOU. YOU CAN USE DARKNESS AND LINE OF SIGHT TO YOUR ADVANTAGE. GIVEN A CHANCE TO "TURN OUT THE LIGHTS", DO SO AND USE YOUR NIGHT GOGGLES TO TAKE CARE OF THE CONFUSED ENEMY.

USE RADAR TO SNEAK UP ON ENEMIES AND KILL THEM WITH APPROPRIATELY STEALTHY WEAPONS, FOR INSTANCE THE MEDIUM MACHINE GUN. REMEMBER THE GREEN ARROWS ON THE DISPLAY ARE ENEMIES THAT HAVEN'T DISCOVERED YOUR PRESENCE YET. RED MEANS THEY'VE ALREADY SPOTTED YOU.

SYDNEY'S SNIPER RIFLE IS AN EXCELLENT WEAPON. USE IT TO CREEP THROUGH LEVELS WHILE HANDLING ANY OPPOSITION AT VERY LONG RANGE. IF YOU'RE CAREFUL, YOU'LL RARELY TAKE DAMAGE.

BEHIND THE SCENES & MAKING OF THE GAME

J. Scott Campbell and Andy Hartnell, the creators of the best-selling Danger Girl Comics series, played an active role in the game's development including art design and the storyline.

Featured exclusively in this manual are never seen before pencil sketches outlining character and scene development. Also featured are preliminary sketches of JC's character development as a Danger Girl for the upcoming new edition to the DC Comics series.

The loading screens are also original, never-seen-before works of art by the creators and are certainly valuable to any Danger Girl fan!
