PLAYING MOTO RACER 2

Moto Racer 2 offers three unique race modes for a single player:

- | | |
|--------------|---|
| PRACTICE | Learn the tracks at your own pace, or race against the clock in Time Attack mode. |
| SINGLE RACE | Race on the track of your choice, where you face seven computer-controlled opponents. |
| CHAMPIONSHIP | This is where the good stuff happens. You can race a street, dirt, or combination of courses and save the championship to continue with it later. |

PRACTICE

Practice mode allows you to hone your racing skills on any track you choose. (➤ *Track Selection and Conditions* on p. 7.). This is an ideal place to learn the nuances of each course and experiment with various bikes.

TIME ATTACK

With Time Attack mode enabled, you complete a track and the computer memorizes your race. For each successive race on the same track, the computer displays a second “phantom” motorcycle that re-runs your best race. At the end of each trial, the computer memorizes the winner’s race.

To enable or disable Time Attack mode, press ● at the Select Track screen. This mode is available only for a certain number of laps and varies according to the track size.

NOTE: *You cannot collide with the phantom bike.*

SINGLE RACE

Single Race mode is a great place to race against some stiff competition (Human or CPU) on your favorite courses. Select a track (➤ *Track Selection and Conditions* on p. 7.), and challenge an opponent to prepare yourself for the rigors of Championship mode.

CHAMPIONSHIP

The Championship is what separates the fast guys from the wannabes. To win it all, you'll need to accumulate the most points over the course of eight races. The number of laps and conditions are fixed.

CHAMPIONSHIP CIRCUITS

In all, there are five championship circuits in which to compete in:

SUPER BIKE CHAMPIONSHIP	Consists of eight Superbike courses.
MOTO X CHAMPIONSHIP	Consists of eight Motocross courses.
DUAL SPORT CHAMPIONSHIP	A combination of four Superbike courses and four Motocross courses.
CUSTOM CHAMPIONSHIP	A user-defined group of courses.(➤ <i>Championship Editor</i> on p. 18.)
ULTIMATE CHAMPIONSHIP	Consists of the eight most challenging courses.

NOTE: *You may access the Ultimate Racers Championship only after completing the Super Bike, Moto X, and Dual Sport Championships in First Place.*

RIDING

Whether you prefer the speed of the Superbikes or the thrills of Motocross, *Moto Racer 2* has what you're looking for.

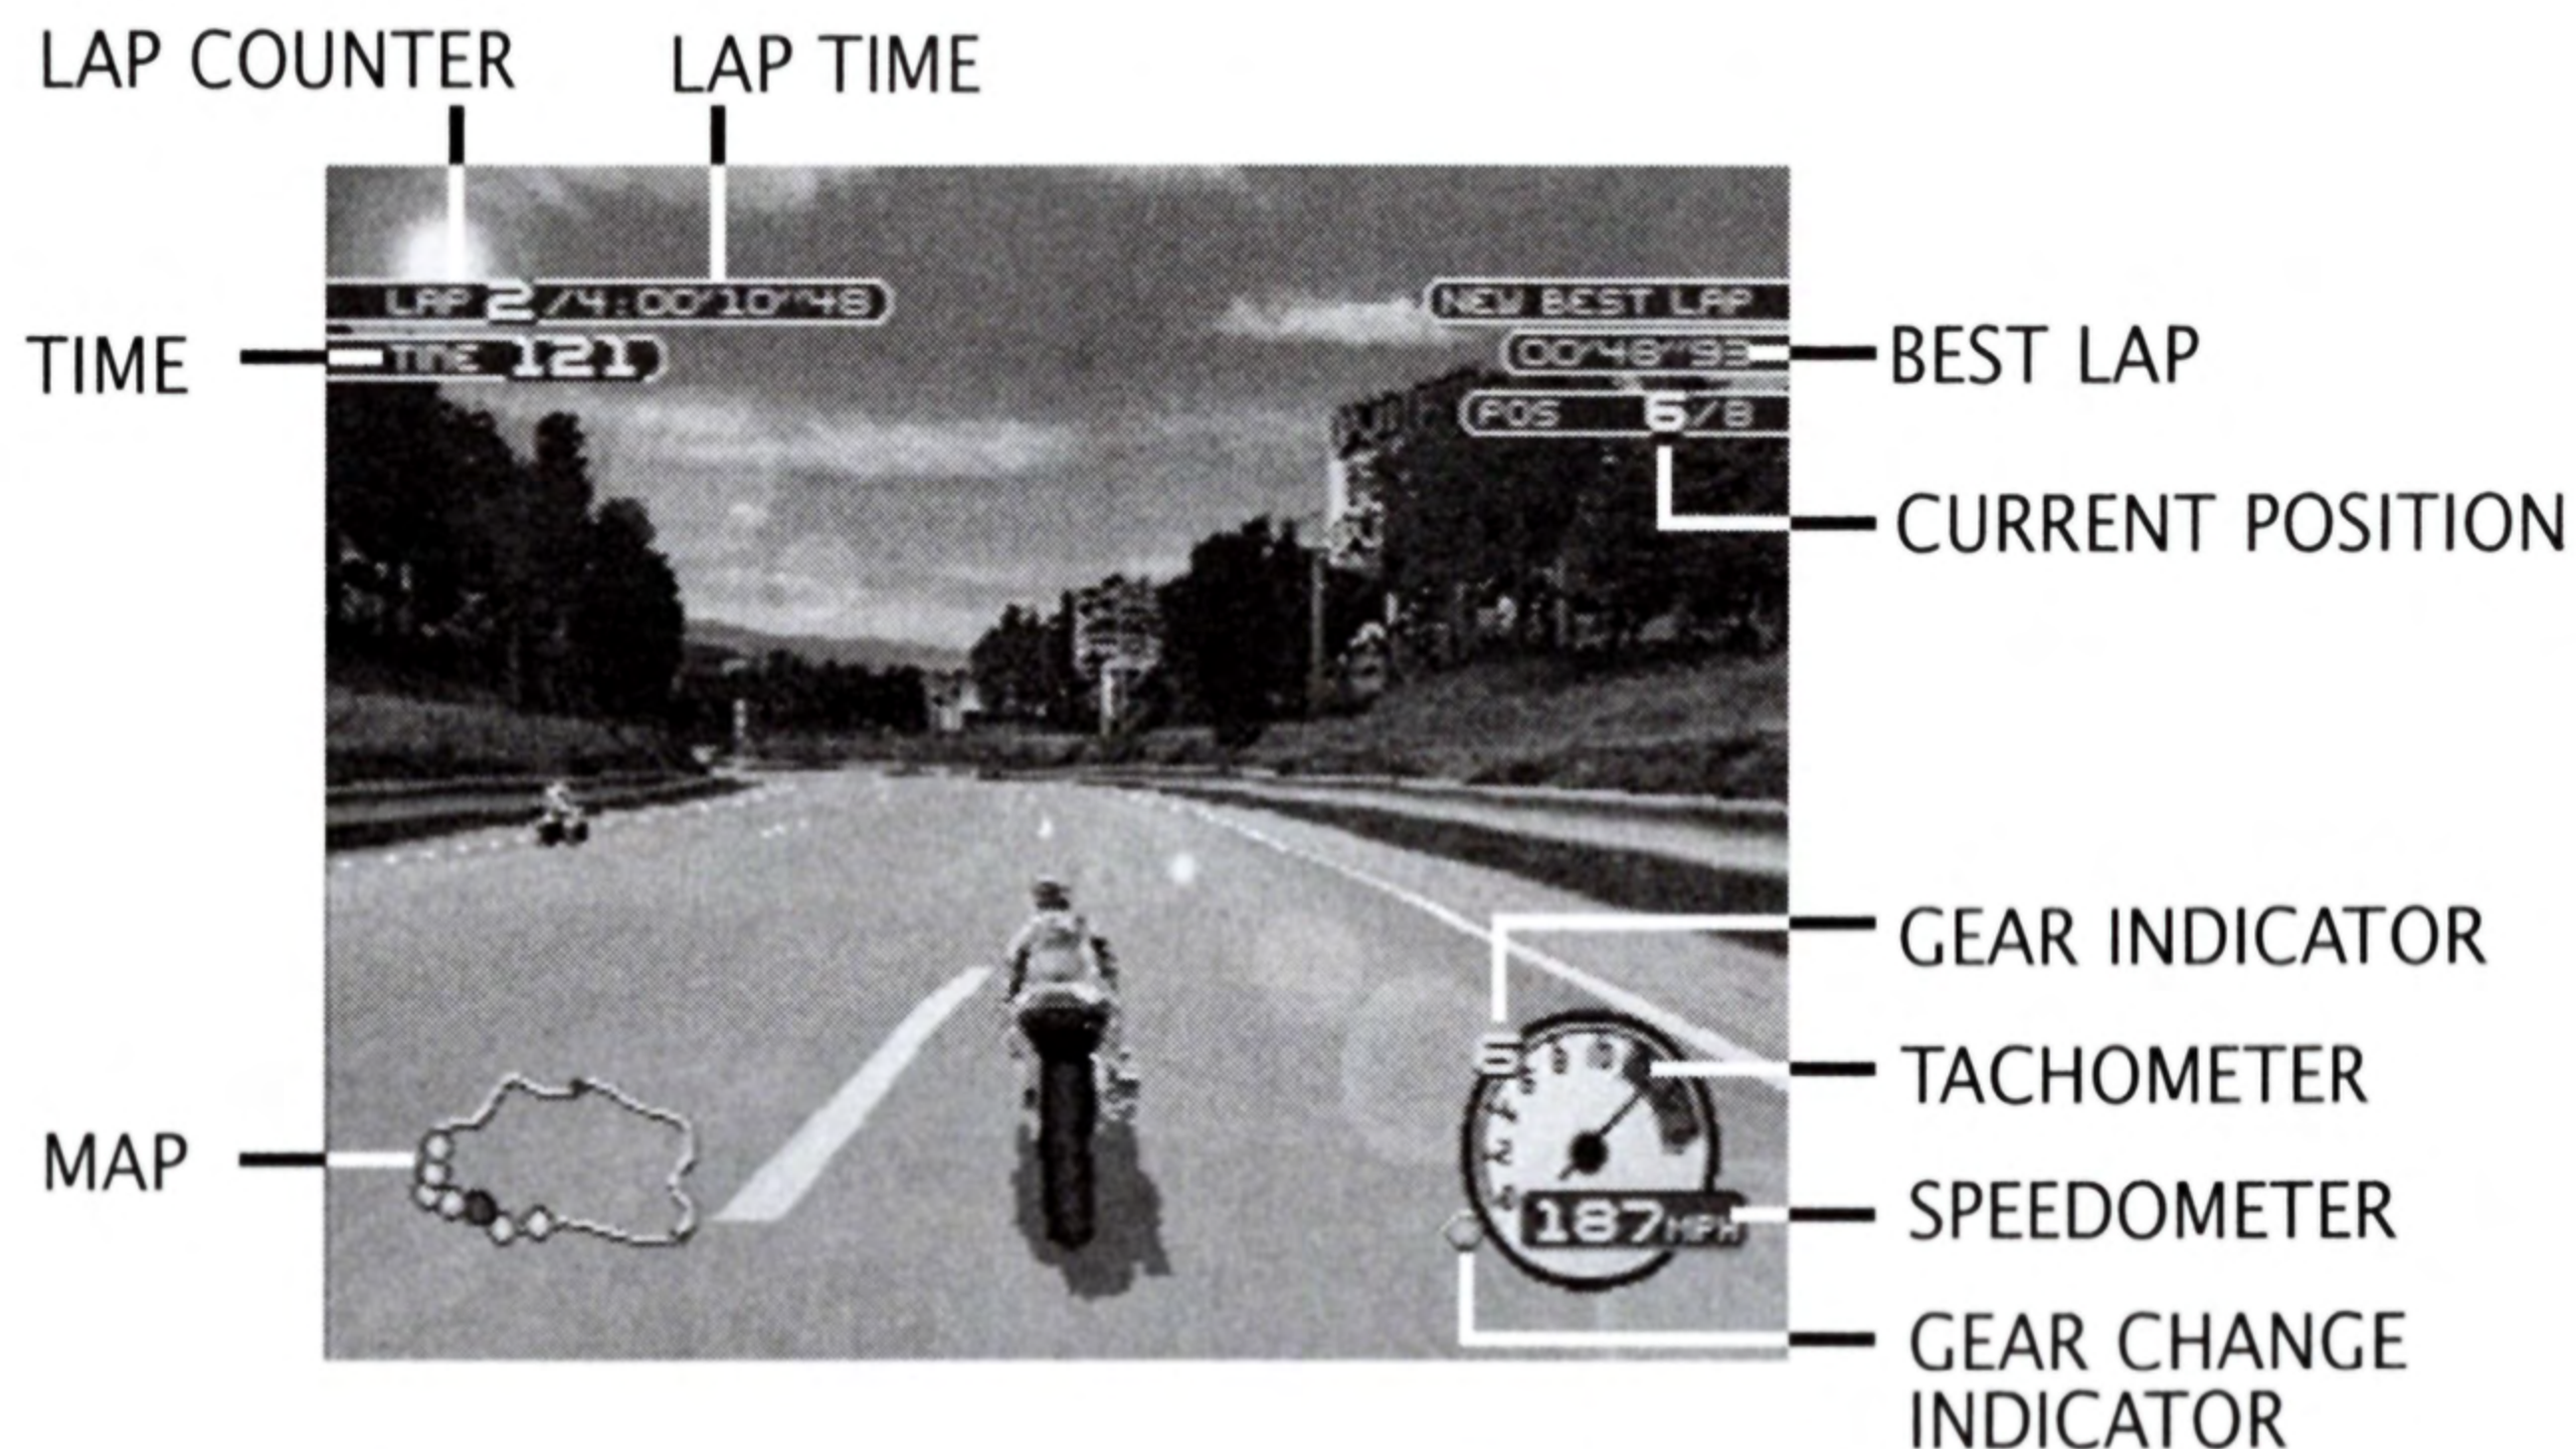

To engage a turbo-charged wheelie and speed burst, press **L2** or **R2**. On a motocross bike, nail **L2** or **R2** on a jump and you'll hit a trick move.

NOTE: *Be careful when using turbo—your bike's a monster, and it's even harder to control on one wheel.*

If you collide with a wall or another bike and fall off, you can continue the race from the point where your bike comes to rest.
