**WARNING: READ BEFORE USING YOUR PLAYSTATION® GAME CONSOLE.**

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation game console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

**WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PlayStation game console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

**HANDLING YOUR PLAYSTATION® DISC:**

- This compact disc is intended for use only with the PlayStation game console.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use.
- Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

# Getting Started

Set up your PlayStation® game console according to the instructions in its Instruction Manual. Make sure the power is off before inserting or removing a compact disc. Insert the NBA In the Zone '99 disc and close the Disc Cover. Insert game controllers and turn on the PlayStation® game console. Follow on-screen instructions to start a game.

# Controls

## The Dual Shock™ Controller

The controller can produce vibrations in both the digital mode (LED off) and analog mode (red LED on). The Vibration Function can be turned on/off from the Control Config option in the Setting menu.

## Resetting the Game

To reset the game to the Title screen during gameplay, press and hold the Select and Start buttons simultaneously for two seconds.

# Mode Selection/Game Modes

At the Title screen, press the Start button to display the Mode Selection screen. Indicate the desired mode using the directional buttons and select it with the  button. The  button cancels the selection.

## Game Modes

### Exhibition

Play a single game with the teams of your choice. With the Multi-Tap, as many as 8 players can participate in the same game.

### New Season

Begin a new regular season in which 50 games are played to determine which teams advance to the playoffs. The team that advances through the playoffs and wins the NBA Finals is the world champion. With the Multi-Tap, as many as 8 players can participate in the same game.

### NBA Playoffs

In this tournament play, losers are eliminated and winners advance to successive rounds. Select your favorite team and try to win the NBA Finals. With the Multi-Tap, as many as 8 players can participate.

### NBA All-Star

Choose either the Eastern or the Western Conference, as the top players from both conferences clash. The NBA All-Star rosters are selected at random unless you manually choose the players.

### Continue

Continue playing a game that has been saved. The original game settings of the saved game will be restored. (See *Load Game/Setting Data* on page 6.)

# Formations

Ensure that the play develops according to your strategy by effectively using the formation Button to select from a variety of offensive or defensive patterns.

## Offense

### Box Offense

This basic formation begins in a fixed pattern. Screens are set to free a player up for a pass.

### Sideline Offense

In this offense, the ball is passed around on the perimeter until a player has a chance to take an open shot.

### High Post Offense

This offense begins with a player set up at the high post.

### 3-Point Offense

A formation intended to get a shooter a 3-point shot opportunity. The shooter moves around outside of the 3-point line and waits for a pass.

### Inside Offense

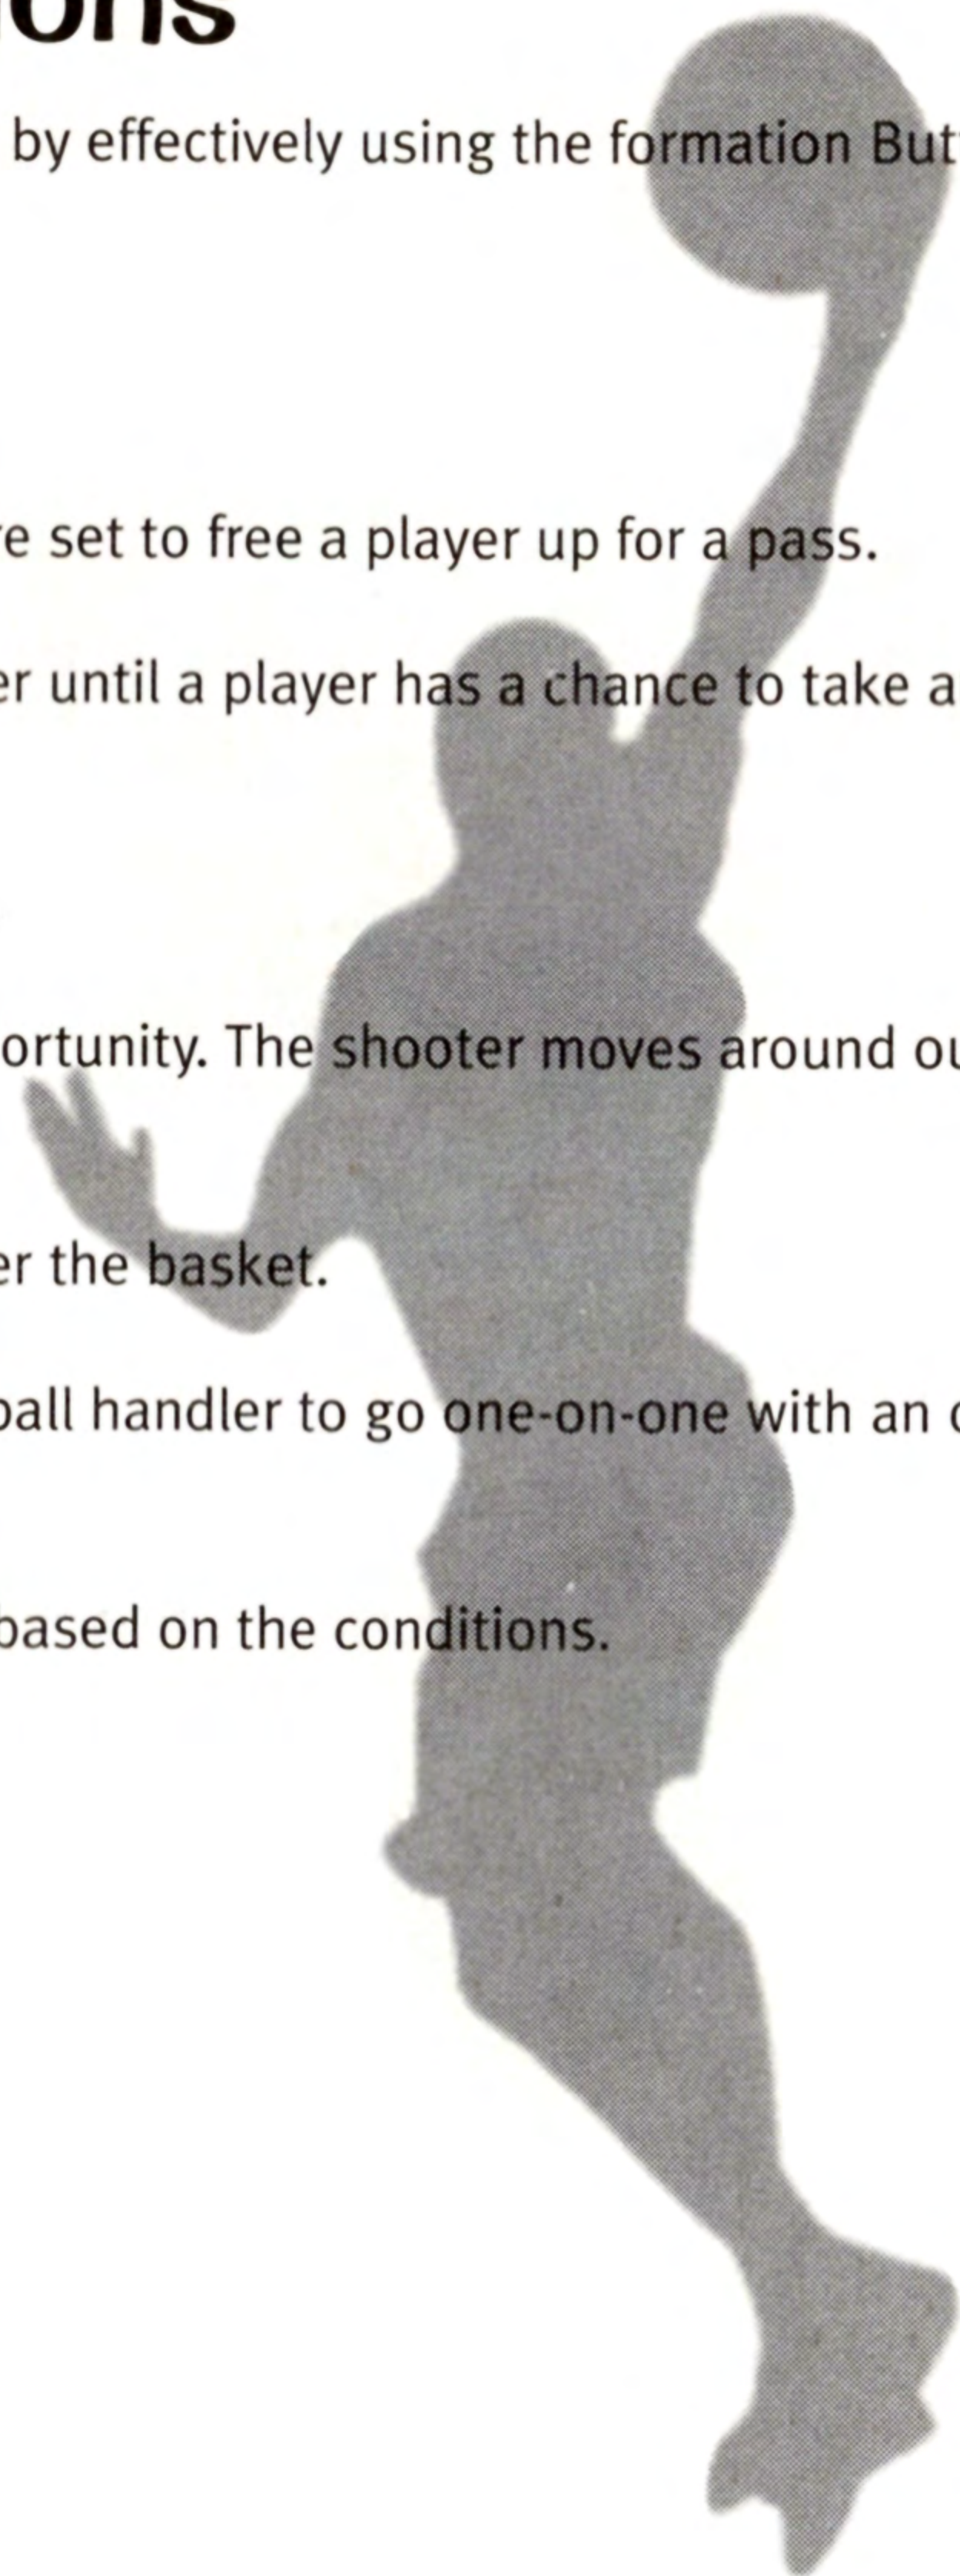

Players on the inside set screens to free up a player under the basket.

### Isolation

Players move out of the ball handler's way, allowing the ball handler to go one-on-one with an opposing player.

### Auto Offense

One of the above 6 formations is automatically selected based on the conditions.

# Defense

## Full Court Defense

An aggressive defense applied over the entire court, creating opportunities for steals and turnovers. However, protection under the basket will be weak, should the opposing team break quickly through the defense.

## Half Court Defense

The defense sets up around the basket, providing strong protection and creating easy opportunities for rebounds.

## 3/4 Court Defense

A formation balanced between full court defense and half court defense.

## Trap Defense

A full court defense that constantly aims at trapping the player with the ball, automatically double-teaming without the player having to press the call Button. However, protection under the basket will be weak, should the opposing team break quickly through the defense.

## Auto Defense

One of the above four defenses is automatically selected based on the point difference.

## Timeouts

When substituting players, the changes take effect when play resumes after a timeout. Timeouts also allow the players to recover some of their stamina. In regulation time, each team can take a total of 7 timeouts. However, a team can take only 4 timeouts in the fourth quarter. In overtime periods, each team can take a total of 3 timeouts, regardless of whether they had timeouts leftover at the end of regulation.

\* A team cannot call a timeout when playing defense.

## Fouls

A defensive foul is charged for defending against an offensive player too aggressively. If the offensive player is in the act of shooting, he is awarded free throws. Offensive fouls are charged when the offensive player is too aggressive. Fouls committed on offense always result in the opposing team gaining possession of the ball.

## Free Throws

When a player is fouled during the act of shooting, that player is awarded free throw shots.

- If the player's shot at the time of the foul is good, the basket is counted and the player is awarded one additional shot from the free throw line.
- If the player's shot at the time of the foul is not good, the player is awarded two free throws if the shot was inside the 3-point line, or three free throws if the shot was outside the 3-point line.

## Fouling out

A player who is charged with a total of six personal fouls is ejected from the game and is not allowed to return during that game. The number of fouls can be adjusted from the rules setting screen.

# Hints

## Offense

Do not drive in recklessly. When recklessly running with the ball or driving to the basket, you may stumble and have the ball easily stolen from you. Particularly, drives near the basket should only be performed when you see an opening.

## Use your screens

When you want to free yourself up, call for a screen by pressing the **L1** Button. A nearby teammate will set a screen on the player guarding you, allowing you to break free.

## Use the R1 Button for 3-pointers

When you find yourself free for a 3-point shot, use the **R1** + **□** Button combination to aim and shoot. Your chances of making the shot are increased in proportion to the time you hold down the **R1** Button. However, the ball can be stolen easily while you are setting up the shot.

## Defense

When playing defense, use the **△** Button. By pressing and holding the **△** Button, your player will automatically run towards and defend the offensive ball carrier. However, failing to cover other players that pose a threat may lead to a player breaking free for an easy basket. Also, do not forget that the **○** Button changes the player you control.

If the offensive player you are guarding is tripped up, go immediately for the steal. You have a much higher chance of picking the ball in this situation.

Respond to aggressive play by taking a foul.

When the opposing team is driving hard to the basket and dunking aggressively, press the **△** + **R1** Buttons. If you are set up in the opponent's path, an offensive foul will be assessed to the opponent.

# Multi-Player

It is possible for multiple users to play this game simultaneously, either on the same team or against one another. To do this, you will need separate controllers for each player and a Multi-Tap (sold separately). Four controllers can be connected to each Multi-Tap.

## Necessary Equipment

2 players: 2 controllers

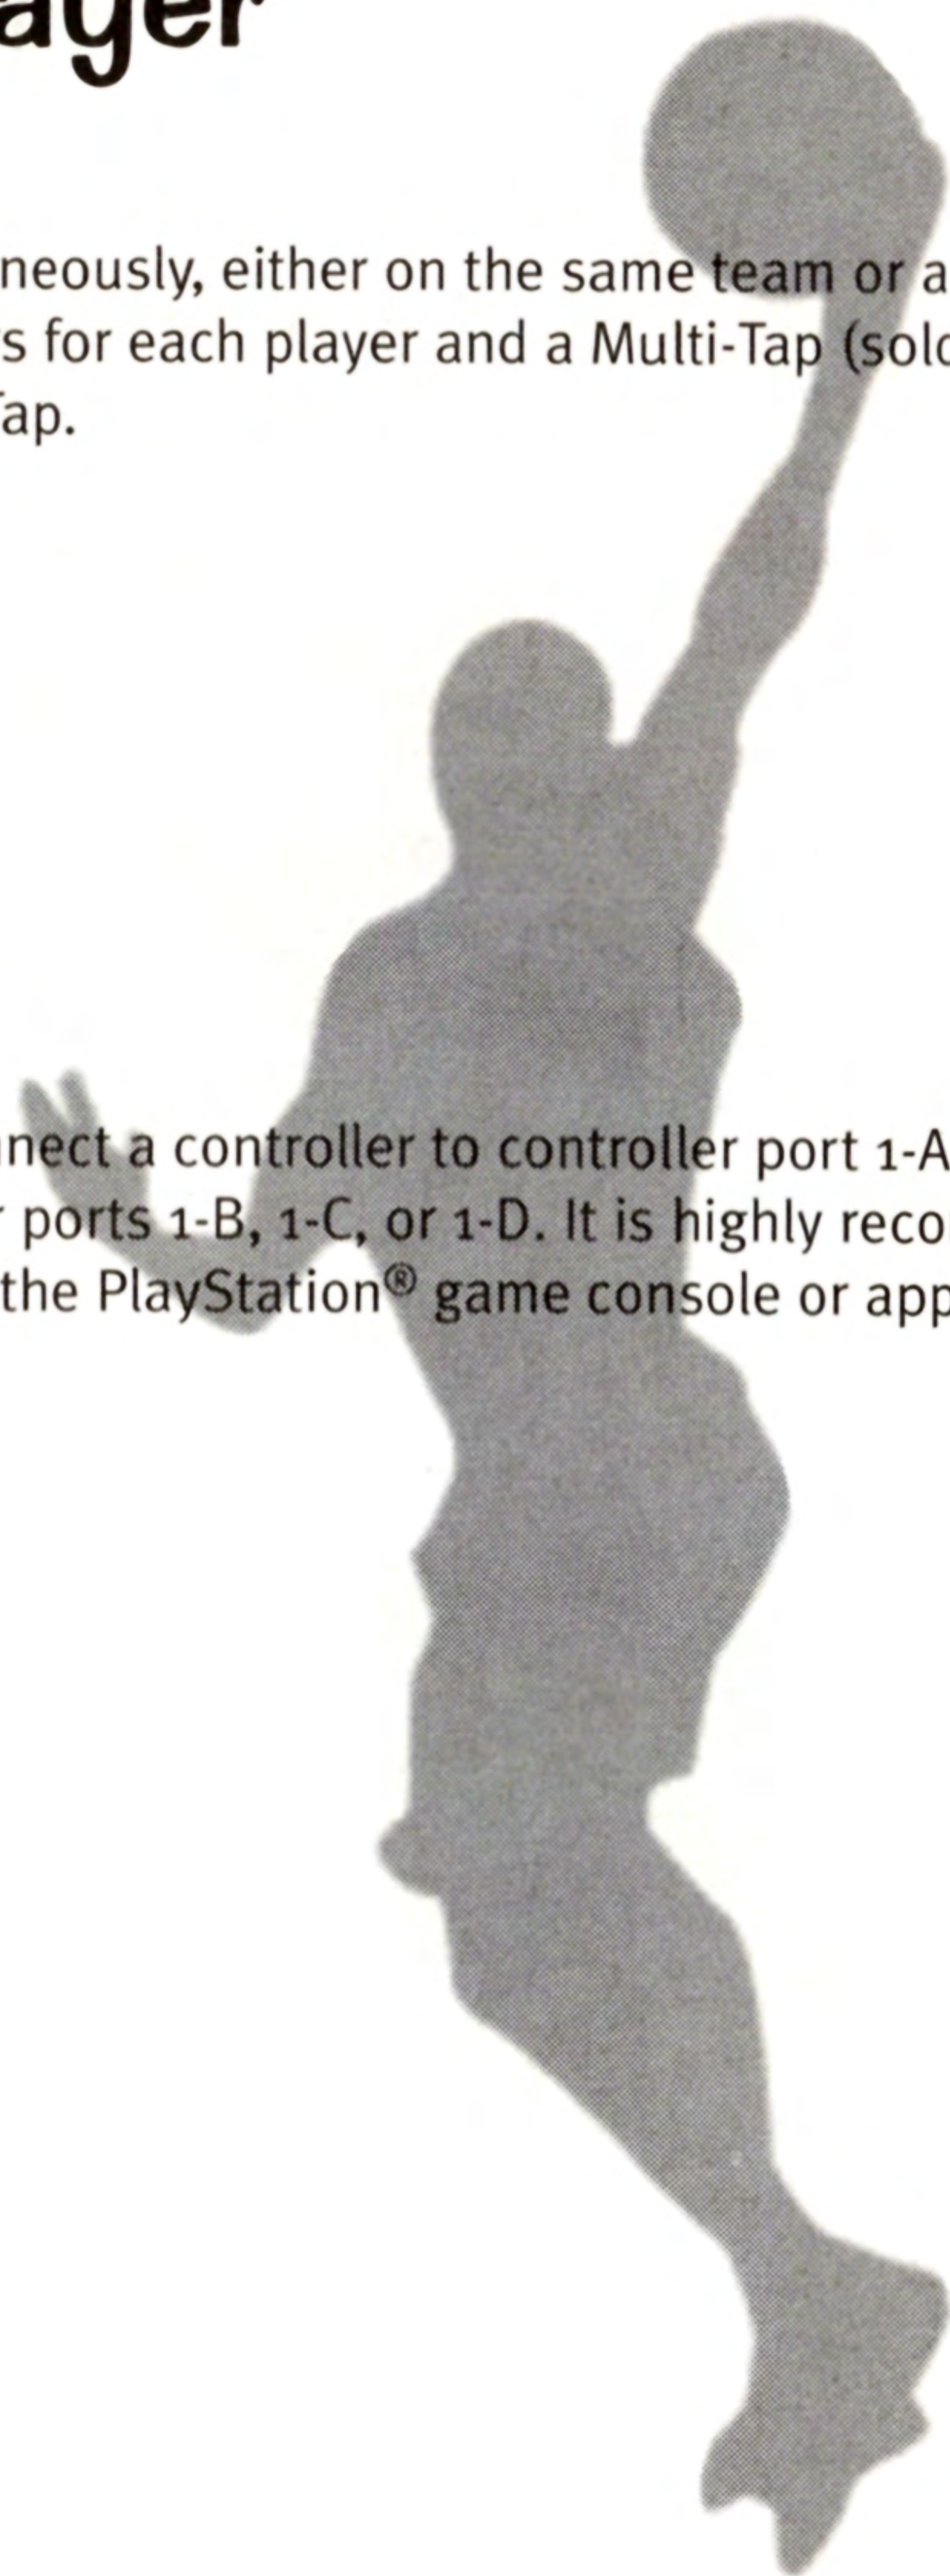

3-5 players: 1 controller for each player and 1 Multi-Tap

6-8 players: 1 controller for each player and 2 Multi-Taps

## Connection Method

\* Notes on using the Multi-Tap

When connecting controllers to the Multi-Tap, always connect a controller to controller port 1-A on the Multi-Tap first, before connecting controllers to controller ports 1-B, 1-C, or 1-D. It is highly recommended that you only use controllers that come included with the PlayStation® game console or approved controllers.
