# INTRODUCTION

NFL Full Contact is a no-holds-barred contest of speed, skill, and brute strength. To win, you've gotta out-think and out-hustle the other guy. You can play against a friend or against the computer. Choose any team in the NFL and any opponent in the league. You get the 1995 roster for each team, so all your favorite superstars are here, waiting for you to call the plays!

This manual will tell you how to get the most out of every player on each down. Look for the offenses and defenses, the trick plays and the old reliables. You'll also find killer moves for both offense and defense that'll leave your opponents' jockstraps all over the field!

## **GETTING STARTED**

When the game starts up, you'll see the introductory screens. Press the Start button to skip these.

After the introductory screens, you'll see the Startup Menu. Use the Directional buttons up or down (↑↓) to highlight each option and left or right (←→) to cycle through the choices within each option. At the Startup Menu you can pick a one- or two-player game, choose whether you're the home or away team, and decide which team each player controls. You can also pick the length of each quarter of play.

An option to start a new Playoff series or Continue is also available. To use Continue, you must have previously received a Password. (Playoffs are for 1 player only.) You can also change the controller and sound configuration from this menu.

Press the Start or ✕ button when you're done with the Startup Menu, and get ready for bone-crunching action!

## **ADDITIONAL CONTROLS**

- **Coin Toss:** The visiting team gets to call "heads" or "tails" and the winner of the toss elects to kick-off or receive.
- **Changing Players:** Pressing the ○ button (while on defense) cycles you through the players on defense.
- **Changing Camera Angle (Available for 1 Player and Playoffs only):** Press Select to cycle through the different camera angles.
- **Zooming the Camera:** The game will automatically zoom in and out in "over the shoulder" mode to give you the best view of the action. However, in this and other modes you still have manual zoom control. Press L1 to zoom out and L2 to zoom in.
- **Abort current game:** Press and hold the Start and Select buttons to reset the game and return to the main menu.

### **Quarterback controls:**

#### **At the line of scrimmage:**

- \* Snap the ball: Press the ✕ button.

#### **After the ball is snapped:**

- \* Pass to appropriate receiver: Press the ✕, □, △, ○ or R1 buttons.
- \* Press R2 to throw the ball away.

## Basic Offense:

The default running speed for the player you control is "full speed". You can change how fast your player runs with these commands:

- \* Cruise (slow down): Press the  button.
- \* Speed burst: Press the  button.

## Basic Defense:

- \* Cruise (slow down): Press the  button.
- \* Speed burst: Press the  button.
- \* Switch to Player Nearest Ball: Press the  button.

## Kicking game

If you do not wish to manually attempt punts or kicks, the computer will do it for you (based on the player's ability). However, for "hand's on" control, here's how to boot the ball downfield:

1. Use the directional pad to aim left or right.
2. Press  to stop the power meter at the desired level. Be quick, because you only have one chance to make it good!

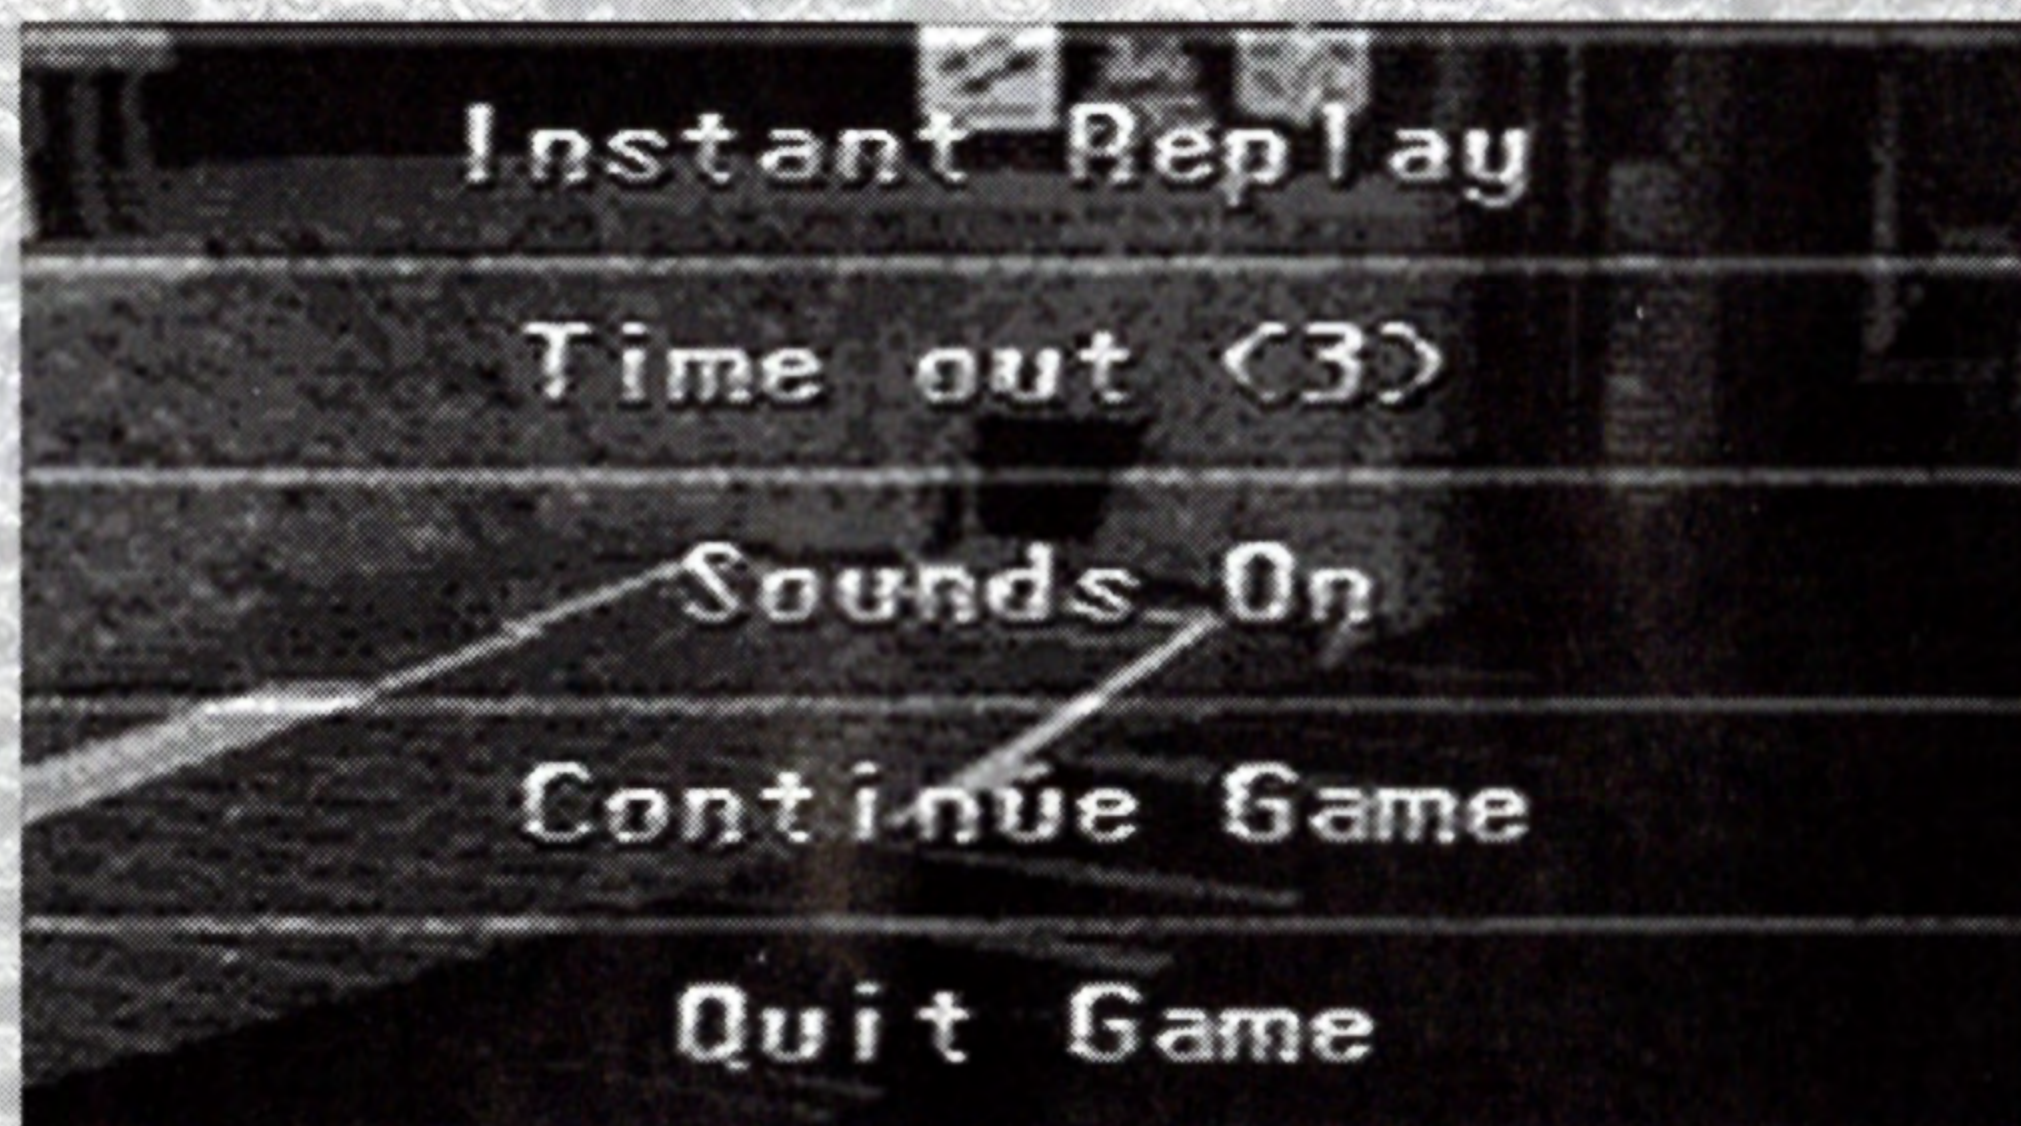

Note: On kickoffs you can execute an onside kick by holding down () on the directional pad and pressing the  button.

## **SPECIAL MOVES**

Whether you're on offense or defense, you've got an arsenal of special moves. These moves give you a chance to significantly alter the outcome of a play. Experiment with different button presses and combos to execute these awesome moves!

## **PLAY OPTIONS**

During the game press the Start button to see the options. This pauses the game and moves the camera to the Scoreboard. On the Scoreboard, you'll see the following Play Menu options:

# Instant Replay

Choosing this option enables you to replay the most recent action.

## Instant Replay controls

## Time Out (#)

Highlight this option using the Directional buttons. Press **×** to call a Time Out (which stops the game and play clocks). The [#] represents the number of Time Outs you have remaining. Use them wisely!

## Continue Game

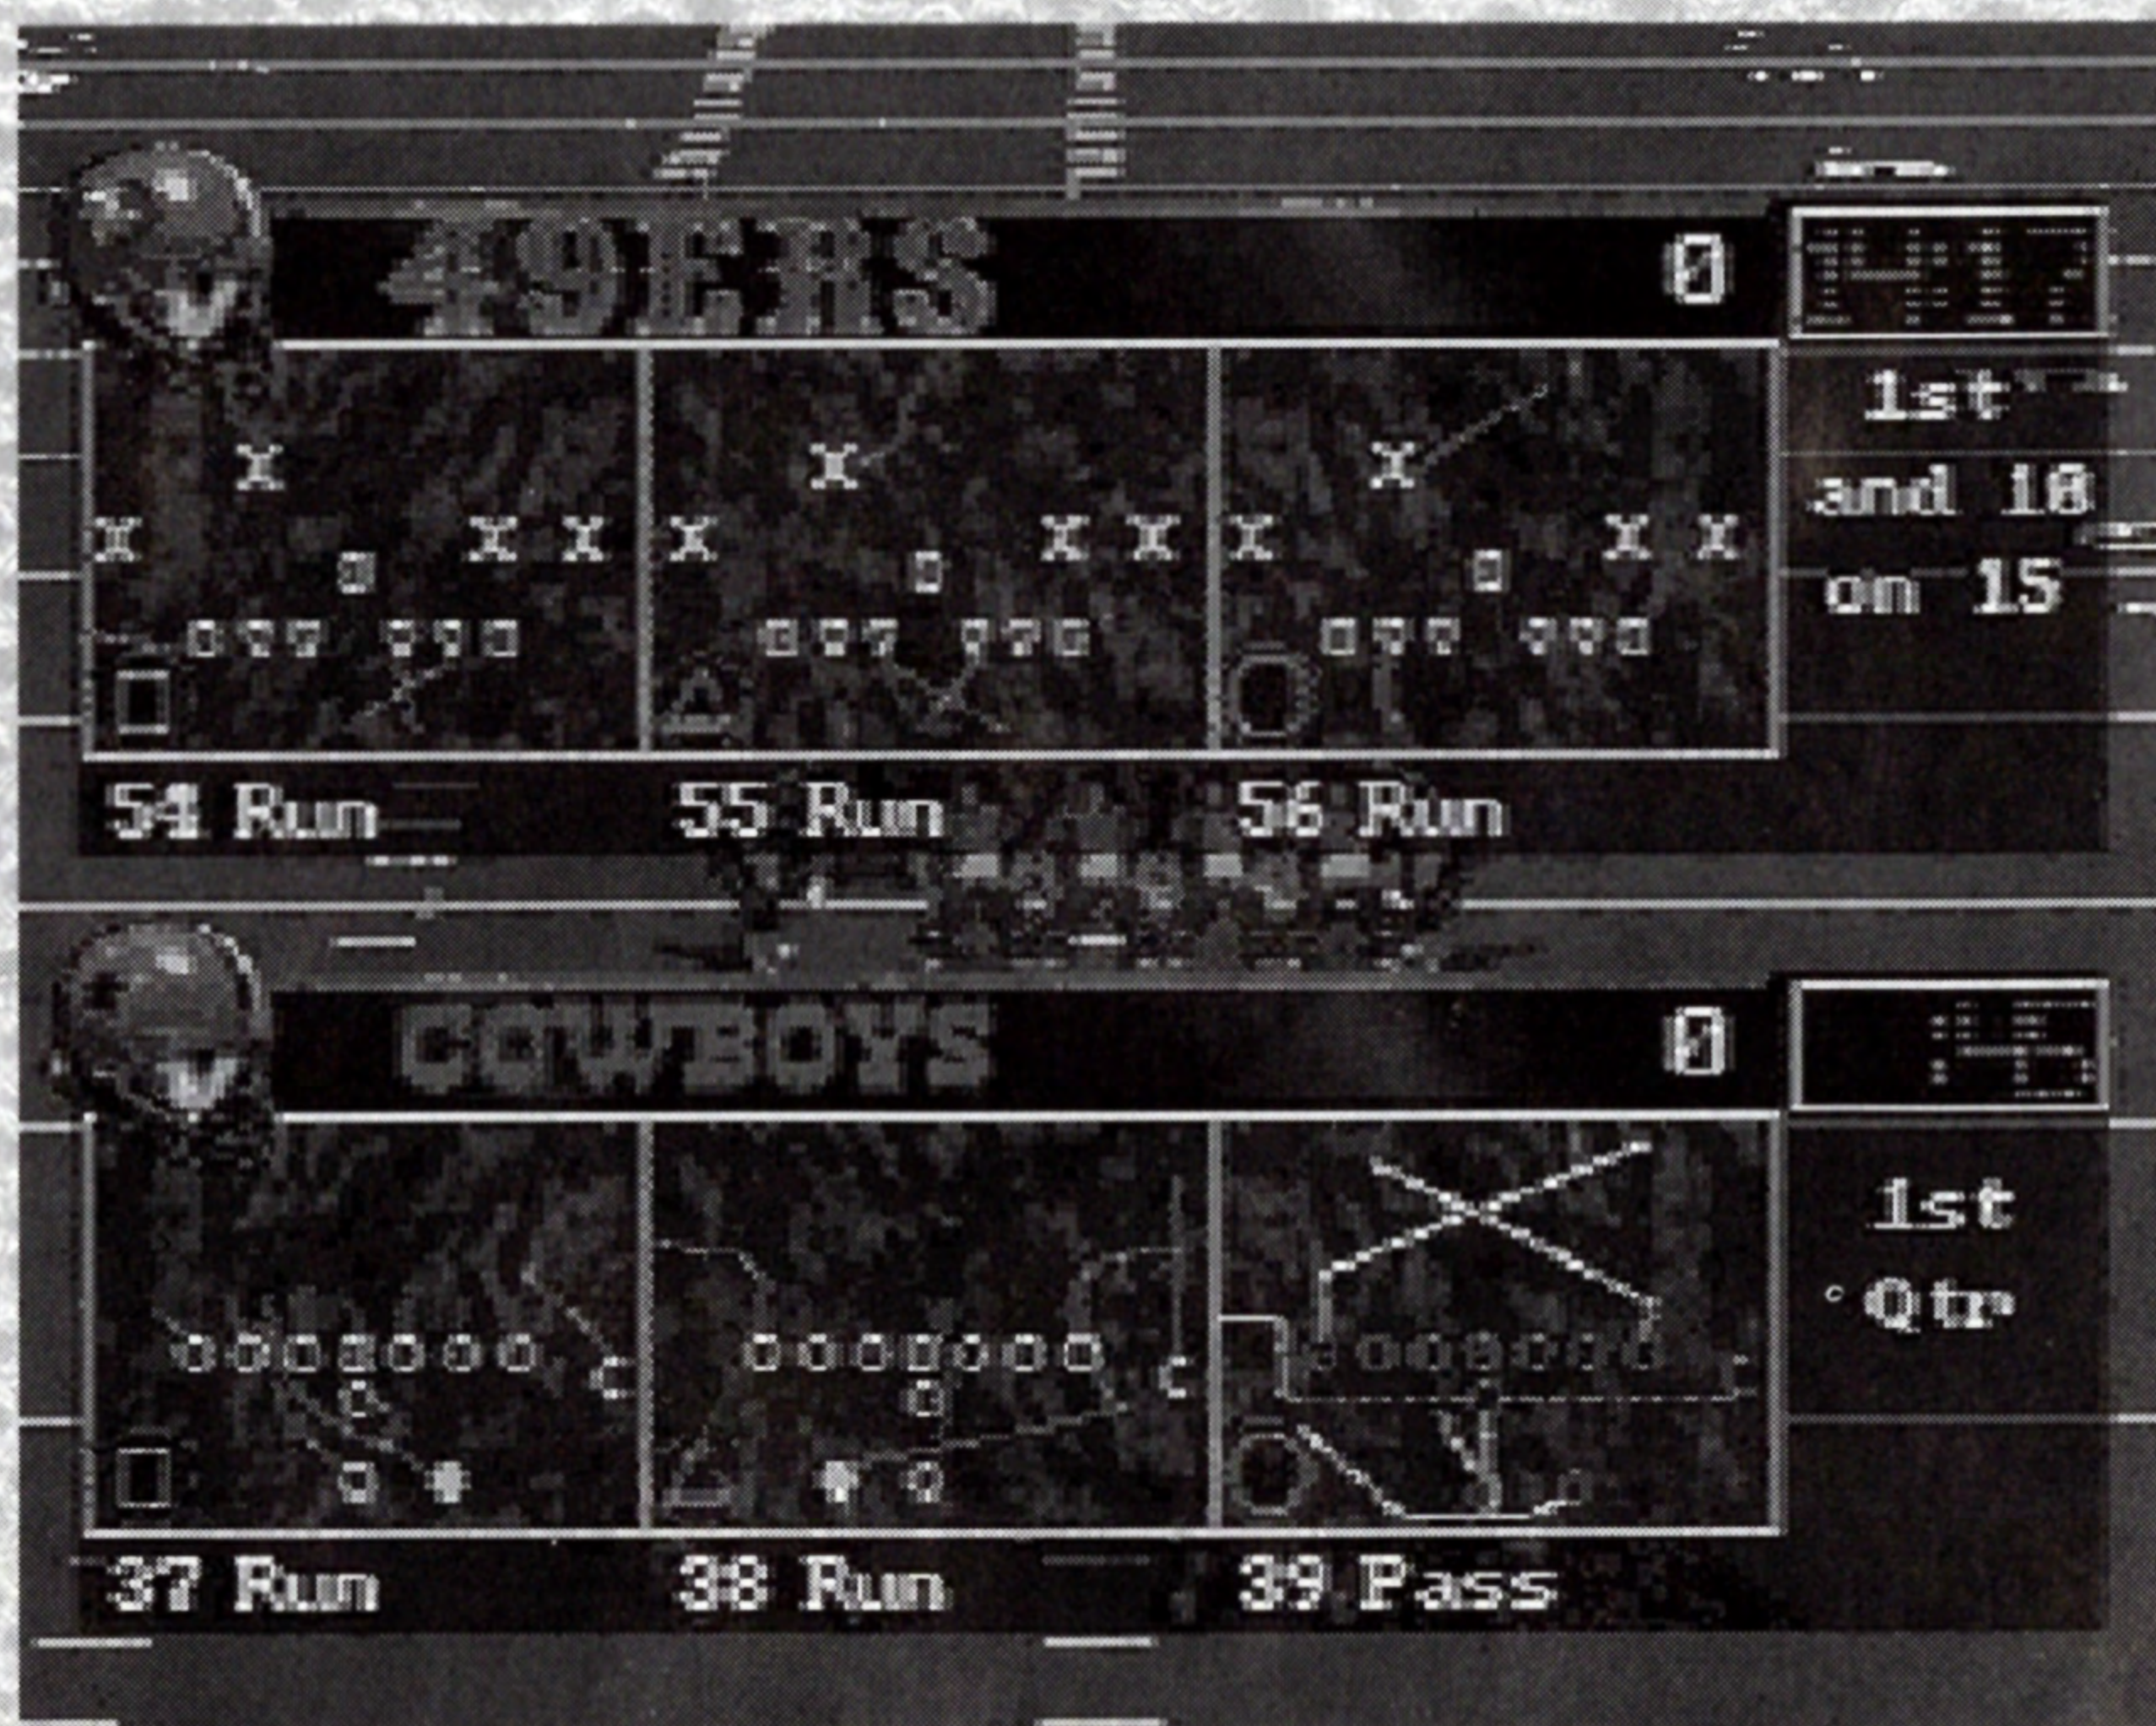

Choosing this option takes you out of the Play Menu and back into the game action. Prior to returning to the game you can check out up-to-the-minute statistics on both your team and your opponent's. The numbers will help you to adjust your strategy to counter your foe's strengths and take advantage of his weaknesses. Press the **×** button to continue the game.

## Quit Game

Choosing this option will return you to the Team Select screen. Select YES or NO to confirm your choice.

# PLAY CALLING
