THE OLYMPIC GAMES

"The most important thing in the Olympic Games is not to win but to take part, just as the most important thing in life is not the triumph, but the struggle. The essential thing is not to have conquered, but to have fought well."

– Baron Pierre de Coubertin, founder of Modern Olympism

The Olympic Movement is symbolized by five interlaced rings, representing the five continents of the world. The aim of the Olympic Movement is to contribute to building a better world by educating youth through sport practiced without discrimination of any kind and in the Olympic Spirit.

The Olympic Games is unique in the sporting world. It is the only competition where the best athletes from 200 countries have the opportunity to strive against one another in the spirit of peaceful competition, friendship and fair play.

Very few people have the opportunity to compete at the Olympic Games. But now computer games players and budding Olympians from all over the world have a chance to train a team of 12 virtual athletes to compete against the best of the best and hopefully have what it takes to win the most coveted sporting prize of all. Good luck in **SYDNEY 2000**, the official video game of the Games.

For more information on the Olympic Games and the Olympic Movement, please visit www.olympic.org.

SETTING UP

Set up your PlayStation® game console according to the instructions in its Instruction Manual. Make sure the power is off before inserting or removing a compact disc. Insert the **SYDNEY 2000** disc and close the Disc Cover. Insert game controllers and turn on the PlayStation game console. Follow on-screen instructions to start a game.

IMPORTANT: Do not insert or remove peripherals or MEMORY CARDS once the power is turned on.

MEMORY CARDS

To save game settings and results or continue play on previously saved games, insert a MEMORY CARD into MEMORY CARD slot 1. If you do not have a MEMORY CARD, the game will allow you to play without saving game settings and results.

Make sure there are enough free blocks on your MEMORY CARD before commencing play. **SYDNEY 2000** requires at least 5 free blocks.

SAVING AND LOADING - HEAD TO HEAD MODE

Sydney 2000 contains a feature allowing you to use saved game athletes from Olympic mode in an arcade environment against other friends' athletes also playing **SYDNEY 2000** on the PlayStation game console.

1-8 PLAYER SIMULTANEOUS PLAY

SYDNEY 2000 automatically detects the number of controllers inserted into your PlayStation game console. Up to four players can participate if a Multi Tap (sold separately) is used, or up to eight players with two Multi Taps.

A Multi Tap should be inserted into Controller port 1, and a controller into Controller port 1-A of the Multi Tap. Further controllers should be inserted sequentially into Controller port 1-B, Controller port 1-C, etc.
